Average deficit Rs. 9,260.*

20	21
The normal surplus which may be expected in future, i.e., the difference between the average ordinary income and the average ordinary expenditure calculated on the figures in columns 18 to 15 and 17 to 19, respectively.	Remarks.

* A full explanation is given in paragraph (d) of the explanations given on the reverse. The deficit is mainly due to the heavy deductions on account of establishment charges for the Revaluation office to the extent of about Rs. 38,000 per year.

In addition to the details required on the reverse, clear information should be given below under the following heads :—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan the particular step which the Board has taken or agreed to take in order to make good the deficit.	(*a*) Though according to the figures shown in columns 13 to 15 and 17 to 19 no surplus is available in future years for the repayment of the proposed loan, yet as the District Board expects an increase of incom from provincial rates due to the revaluation now going on of at least Rs. 40,000 during the current year and of about Rs. 1,00,000 from subsequent years after the completion of the revaluation work, the repayment of the loan instalments of the proposed loan could be easily arranged for.
(*b*) Possible means of increase in the revenue of the District Board.	(*b*) From revaluation of cesses which is going on.
(*c*) A statement of outstanding loan as well as the annual charge involved on their account.	(*c*) Rupees 62,500 only is outstanding as loan from Government. On this account Rs. 18,725 only will have to be paid during the current year, including interest of Rs. 1,225, and Rs. 5,410-13-9 during the next year including interest, and the balance will be repayable by instalments commencing from 1st May 1927.
(*d*) Any explanation in regard to the expenditure to show the true financial position of the Board when such position is otherwise than the ordinary surplus would indicate.	(*d*) Though on the basis of the actual calculation of the figures in columns 13 to 15 and 17 to 19 it appears that no surplus could be expected in future years as there was an average deficit of Rs. 9,260 during the last three years owing to heavy deductions on account of establishment charges for the revaluation office, the District Board expects that although there may not be any surplus next year after meeting all necessary normal expenditure and the charges on account of existing and proposed loans, the incomes will be sufficient to meet all those charges with the expected increase of Rs. 40,000 from cesses from the current year, and it is expected that with the estimated increase of income of Rs. 1,00,000 from cesses from next year when the revaluation work is expected to be complete, there will be no difficulty in repayment of instalments of the loans.

The Charitable Endowments Act, 1890.

No. 1996Edn.—The 23rd July 1925.—It is hereby notified that His Excellency the Governor of Bengal in Council, in exercise of the powers conferred on him by sections 4 and 6 of the Charitable Endowments Act No. VI of 1890, and upon the application and with the concurrence of Munshi Imadul Huq of Labsa, district Khulna, in Bengal (hereinafter referred to as "The Donor") doth hereby order and direct that the 130 shares in the Arakan Light Railway Company, Limited, particulars whereof are set forth in the First Schedule hereunder written, shall as from the date of registration of the name of the Treasurer in the register of the said Company vest and be henceforth vested in the Treasurer of Charitable Endowments for the territories subject to the Government of Bengal (hereinafter referred to as the said Treasurer) to be held by him and his successors in office subject to the provisions of the said Act and the Rules from time to time framed thereunder by the Governor-General of India in Council upon trust to permit the same and the income thereof

to be used for the endowment and maintenance of a permanent fund to be called "The Inamul and Aminul Huq Endowment" for or towards the benefit of poor and deserving Muhammadan students of the Government-aided Junior Madrasah or School at Labsa aforesaid in accordance with the terms of a Scheme of Management, the particulars whereof are set forth in the Second Schedule hereunder written.

And it is hereby further notified that the said scheme shall come into operation upon the date of the first publication of this notification.

The First Schedule above referred to.

One hundred and thirty shares, Nos. 7271 to 7370 and 18071 to 18100 inclusive, of Rs. 100 each (fully paid) in the Arakan Light Railway Company, Limited, a Company incorporated in India and having its present registered office at Calcutta, together with the uncollected dividend on such shares for the year 1924.

The Second Schedule above referred to.

Scheme of Management.

1. The endowment above created shall be called "The Inamul and Aminul Huq Endowment."

2. The endowment shall be administered by the person from time to time holding or officiating in the post of Inspector of Schools, Presidency Division, under the Education Department of the Government of Bengal (hereinafter called "the Administrator").

3. The object of the endowment is to aid poor and deserving Muhammadan students of the Government-aided Madrasahs or Schools at Labsa and other places in the district of Khulna in Bengal in the manner provided in this scheme.

4. The estimated average income of the fund will be about Rs. 715 per annum. Out of such income Rs. 384 per annum shall be set apart in the first place for stipends or scholarships as hereinafter mentioned and the balance of the said income shall be applied first in providing allowances to poor scholars as hereinafter mentioned and secondly for repairs and upkeep of the Madrasah so far as such balance shall extend.

5. In every year beginning on the first day of January 1926, two scholarships of Rs. 4 each per mensem shall be awarded (making Rs. 48 per annum each scholarship, or Rs. 96 per annum) until four years have elapsed. Each scholarship shall continue for four years only, and on the expiration of each scholarship a fresh scholarship shall be awarded in place thereof, so that after the first four years there will always be 8 scholarships in existence every year of Rs 48 each per annum, making a total expenditure of Rs. 384 as abovementioned.

6. In the first year the expenditure for scholarships will be Rs. 96 only, in the second year it will be Rs. 192 only and in the third year it will be Rs. 288. Out of the surplus of Rs. 576 which will accordingly remain from the scholarship income of the first 3 years, the administrator shall continue to pay Rs. 4 per month to each of the scholars who are at the commencement of this Scheme in receipt of similar scholarships being privately bestowed by the Donor as if such private scholarships had been commenced under this Scheme.

7. The recipients of scholarships under this Scheme shall be selected from those Muhammadan students of the said Labsa Junior Madrasah who have passed the Junior Scholarship Examination of that Madrasah and who shall then proceed to the Hooghly Madrasah to prosecute their studies there. Provided always that if the Labsa Madrasah shall be raised to the status of a Senior Madrasah, the recipients shall be selected (in preference to all others) from those Muhammadan students who after passing the Labsa Junior Madrasah Scholarship Examination shall decide to continue their studies in the Senior Branch of the said Madrasah. A scholarship shall cease on the death on the scholar or in case of misconduct as hereinafter mentioned or if he shall cease to prosecute his studies in the Senior Branch (if any) of the Labsa Madrasah or at the Hooghly Madrasah as the case may be, but temporary interruption of his studies from illness or other good cause shall not disqualify the student from receipt of his scholarship. In case of such temporary interruption, the Administrator shall have discretion either to suspend or continue the scholarship during such interruption as he shall think fit. If by reason of change of residence or other good cause a scholar cannot attend the Labsa Senior Madrasah or the Hooghly Madrasah, his scholarship shall nevertheless be continued if the Administrator is satisfied that the scholar is prosecuting his studies elsewhere.

8. In the selection of students to receive scholarships, ordinarily those who have been most successful in the Junior Scholarship Examination shall be selected (subject to good behaviour). The Administrator shall consult the Managing Committee of the Labsa Madrasah as to such selection, but his decision shall be final.

9. The balance of the said income shall be applied as follows: In the first place a sum of Rs. 20 per mensem shall be distributed among poor Muhammadan scholars at the said Labsa Junior Madrasah at the rate of Rs. 4 to each of 5 scholars who shall be selected either monthly or at longer intervals by the Managing Committee of the said Madrasah. Such payments shall commence at the same time as the scholarships under paragraph 5 hereof. On making such selections the Committee shall select students of good behaviour and as far as possible shall select those whose parents appear to be

most in need, the object of these allowances being to provide food. The allowance shall be made to poor students in the 1st and 2nd classes of the Madrasah and as far as possible there shall be 3 from the 1st class and 2 from the 2nd class or *vice versa*. In exceptional circumstances the Committee may recommend a larger number of students to receive smaller sums, as for instance 10 students at Rs 2 each. But in all cases the Administrator may overrule the selections of the Committee and may make other selections if he shall think it necessary to do so, and his decision shall be final. Any allowances made under this clause may be continued to any scholar for the whole time he attends the Madrasah or any shorter period as may be thought fit. In the next place any remaining income shall be applied by the Managing Committee in the repair and upkeep of the said Madrasah subject to the control of the Administrator whose decision as to when and how such expenditure is to be made shall be final, and any such remaining income may be accumulated at the discretion of the Administrator for so long as he thinks fit so as to create a reserve for future repairs or rebuilding or similar expenses. Provided always that in the event of the Labsa Madrasah being raised to the status of a senior Madrasah as aforesaid, the recipients of food allowances under this clause shall be selected as nearly as possible in like manner as abovementioned in the first instance from poor and deserving students of the 1st year and 2nd year classes of the Senior Branch, but with discretion to the Administrator to make selections also from the Junior Branch as above provided if he shall consider there are not enough suitable recipients from the Senior Branch, and all other provisions of this clause and of this Scheme shall be applicable to such recipients whether from the Senior or the Junior Branch.

10. In the event of the income being reduced by reason of smaller dividends or other causes, the reduced income shall be applied first for scholarships, secondly for allowances, and thirdly for repairs, etc., in the order abovementioned.

11. All scholarships and allowances shall be made subject to good behaviour and may be discontinued temporarily or permanently at the discretion of the Administrator in case of disloyalty, dishonesty or similar misconduct or continued idleness or insubordination.

12. In the event of any scholarships or allowances not being awarded for want of suitable recipients or being discontinued temporarily or permanently, the sums which in consequence shall remain unexpended shall be accumulated and when sufficient shall be invested in purchase of further shares of the said company (not less than 20 shares at a time) or other investments authorised by this scheme (of about Rs. 1,500 at a time) and be added to the capital of the Fund. Any increased income resulting therefrom shall be applied first in providing one more scholarship and next in providing a corresponding sum for allowances to poor scholars and so on alternately.

13. If Junior Madrasahs should be abolished by the local Governments and other Madrasahs or Schools are instituted in their place for education of Muhammadan boys and without any grants-in-aid, then a fresh scheme shall be settled by the Local Government by which the said Fund be utilised for the maintenance of the Madrasah or School for Muhammadan boys at Labsa aforesaid. But if any such new Madrasah is instituted by Government at Labsa in place of the existing Junior Madrasah and it is sufficiently maintained by a grant-in-aid, then this scheme shall continue to be applied as nearly as possible to any such new Madrasah. In this connection the decision of the Director of Public Instruction, Bengal, shall be final as to whether this scheme can continue or a new scheme shall be framed.

14. If for any reason there shall cease to be any School or Madrasah for Muhammadan boys at Labsa aforesaid but any other school shall exist within a convenient distance available for the boys of Labsa, this scheme shall be applicable as nearly as possible to such school, but the scholarships and allowances shall only be given to boys from Labsa. If there shall cease to be any school at Labsa or within reach of Labsa as aforesaid, a fresh scheme shall be framed whereby the income of this Fund shall be utilised in maintaining the Muhammadan Orphanage at Calcutta otherwise for the benefit of poor Muhammadan boys in Calcutta.

15. On any fresh scheme being settled as aforesaid, the Fund shall always be called "The Inamul and Aminul Huq Endowment."

16. In the event of its being found necessary or desirable to replace the investments comprising the said Fund by other investments, the fresh investments shall not be in any debenture or loans or other securities upon which interest is paid, but shall be in shares in Railway or other Companies of the nature authorised by sub-section 3(*c*) of section 4 of the Charitable Endowments Act, 1890.

3. Rent-free holders, whether of the degree of raiyat or landlords, shall pay the whole of the landlords' share for their lands.

4. As between the different grades of landlords, the landlords' share shall be apportioned thus:—

(*a*) Permanent tenure-holders whose rent is fixed in perpetuity shall pay their own share of the cost and that of the landlords superior to them.

Any objection or suggestion which may be received from any person with respect to the draft before the said date will be considered by the Governor-General in Council.

DRAFT AMENDMENTS.

1. For rules XII to XVII of the said rules and the headings thereto the following headings and rules shall be substituted, *namely*:—

E.—Apparatus for extinguishing and precautions against fire.

STEAMSHIPS.

XII.—(1) On every steam ship of more than 4,000 tons gross tonnage at least three, and on every other steam ship at least two, steam or equivalent pumps shall be available for the spaces occupied by passengers and crew. Each such pump shall be capable of providing a full supply of water, in accordance with the requirements specified in sub-rule (*1*) of rule XVII, to one or more ranges of water service pipes. The service pipes shall be of metal, with branches so arranged that the fire hoses may be coupled thereto and two powerful jets of water may be rapidly and simultaneously brought to bear, by means of single lengths of hose from each branch, upon any part of each deck space occupied by passengers or crew, when the water-tight and fire doors are closed. Where the water service is on an exposed deck, the branches necessary to comply with the foregoing requirements shall be fitted on both sides of the deck.

* Spaces occupied by passengers and crew.

Provided that the main engine sanitary pump shall be allowed to count as one of the pumps required to be available if it is so fitted as to be capable of serving the purpose of such pump :

Provided further that where the sanitary pump is counted as one of the fire pumps and where the water service is on an exposed deck there shall be a lead on each side, one lead being from the sanitary tank and the other direct from the auxiliary pumps.

(2) Every steam ship shall carry an efficient portable hand pump with suction and hose complete.

(3) Portable chemical fire extinguishers shall be carried in every compartment wherein passengers and crew are accommodated. There shall be two extinguishers in each such compartment, and when passengers are carried in enclosed spaces above the upper deck, there shall be at least one extinguisher on each side of such spaces at intervals of not more than 60 feet.

Cargo spaces.

XIII.—On every steam ship arrangements shall be made to enable two powerful jets of water to be poured into each cargo compartment, and save in the case of a steam ship of less than 1,000 tons gross tonnage, satisfactory means shall also be provided whereby steam or some other approved fire extinguishing medium may be conveyed to each such compartment.

Machinery and bunker spaces.

XIV.—(1) In any steam ship which uses coal as fuel, there shall be provided in the machinery and firing spaces, in addition to the apparatus hereinbefore or hereinafter required, at least two chemical fire extinguishers in each compartment. In the coal bunkers, arrangements shall be made whereby two powerful jets of water can be brought to bear upon any part of the bunker space by means of single lengths of hoses.

(2) In any steam ship which uses oil fuel, in addition to the usual water service and hose pipe conductors, one of which shall be provided with a nozzle having perforations in it to spray the discharge, steam from the auxiliary range of piping shall be led to pipes perforated for the omission of steam into the lower parts of the boiler room. The control of this steam supply shall be outside the boiler room. There shall be in each stokehold a receptacle, holding about 10 cubic feet of sand, saw dust impregnated with bicarbonate of soda, or other approved dry material suitable for extinguishing fire. Suitable scoops for distributing the same shall be provided, and also a chemical fluid extinguisher of an approved type for use in any specially confined or dangerous space.

SAILING SHIPS.

XV.—(1) Sailing ships not exceeding 300 tons burden shall be provided with an efficient steam or hand-pump of a suitable size and with sufficient hose to reach any part of the vessel. If the tonnage exceeds 300 tons two such pumps of adequate size together with sufficient hose shall be provided to enable two powerful jets of water to be brought to bear rapidly and simultaneously on any part of the ship.

(2) In passenger sailing ships chemical fire extinguishers shall be provided on the scale specified in sub-rule (*3*) of rule XII.

MOTOR SHIPS.

XVI.—Motor ships shall have the same appliances as steam ships, and if a donkey boiler burning oil-fuel is fitted, sand or impregnated sawdust shall, in addition, be provided in the engine room.

GENERAL REQUIREMENTS.

Pumps.

XVII.—(1) In steam ships each of the steam or equivalent pumps shall be capable of supplying simultaneously two powerful jets of water for use in any part of the vessel. The pumps shall be worked by steam or by some other equally efficient motive power, and shall always be available for immediate use when the passengers are on board.

(*2*) In sailing ships, the steam pump required for the distilling apparatus shall be adapted for use as a fire pump. Each hand pump shall be at least double acting and shall have not less than one cubic inch lifting capacity of pump chamber for every 25 tons gross of the vessel; and a total lifting capacity not less in any case than 60 cubic inches : provided that, subject to the capacity of each single pump being not less than 60 cubic inches, the total capacity required may be obtained by fitting two or more pumps. Each hand pump shall be of the fly-wheel type and permanently fixed in position, and shall have metal suction pipe, other than lead fitted, with cocks on the ship's side.

(3) All steam or equivalent pumps shall be provided with effective escape valves suitably adjusted, and so placed as to prevent excessive pressure in any part of the water service system.

Water service pipes.

XVIII.—The main water service pipes shall be made of wrought material, and if of iron or steel, shall be galvanised. They shall be sufficiently large in diameter for the adequate supply of water to the fire hoses which shall be secured to them for simultaneous operation. The branches shall be so placed that the fire hoses may be conveniently coupled to them, and cocks or valves shall be fitted where required to admit of any hose being removed, if desired, while the pumps are at work.

XIX.—(1) The fire hoses shall be made of leather, seamless hemp, or flax canvas, of first class quality or other approved material. Each hose shall be provided with suitable metal unions and conductors, and with goose-neck connections where necessary, and each complete hose shall be of such length that, when in position, a jet of water may be projected to any part of the space in which it is to be used. In the case of vessels requiring a twelve months' declaration, there shall be 50 per cent. more lengths of hose than the minimum quantity necessary to meet the requirements of this and the preceding rules.

Fire hoses.

(2) The fire hose, conductors, etc., shall be kept ready for use, in suitable and conspicuous positions, two fire hoses forward, two fire hoses aft and the spare hoses amidships, and shall be used only for the purpose of extinguishing fires, or testing the apparatus at fire drills and surveys. Working wash-deck hose shall not be accepted as fire-hose.

XX.—(1) The pipes for conveying steam to holds or other compartments shall be provided with controlling valves readily accessible from the deck, and suitably marked to indicate the compartments to which the pipes are respectively led. Suitable provision shall be made for locking these valves, as a precaution against the inadvertent admission of steam to any compartment, and if any pipe is led to a space to which passengers have access, it shall be furnished with an additional stop-valve, capable of being locked, or some other device providing the requisite security from danger.

Pipes to holds, etc.

(2) In any ship in which pipes are not specially fitted for admitting steam to the holds, flexible steam pipes shall be used and suitable provision made for rapidly connecting them with the winch steam pipes and the various hold sounding pipes. The connection with the latter shall be such that it will not be blown out when steam pressure is admitted, and air will not be carried down with the steam into the hold. In such cases small holes shall, if practicable, be bored in the sides of the sounding pipes for the steam to escape into the holds.

(3) All openings to the compartment to which steam is admitted shall be shut, and the volume of steam shall be such that, should there be any leakage through the walls of the compartment, steam will escape and thus prevent air entering.

XXI.—Portable chemical fire extinguishers shall be of an approved fluid type, with a capacity of not less than two gallons. The extinguishers on any one ship shall not be of more than two kinds. They shall be kept where most likely to prove serviceable in cases of emergency, and shall bear on each apparatus printed instructions regarding its use, and the maker's dated guarantee as to the sufficiency of the extinguisher for the pressure generated when it is put into action.

Portable chemical fire extinguishers

XXII.—(1) Every ship shall be provided with fire buckets in the proportion of 3 for every 100 tons up to 600, and two for every 100 tons above 600, provided that 50 buckets in all shall suffice.

Fire buckets.

(2) Fire buckets shall be painted a distinctive colour and shall be kept filled, and distributed about the vessel in conspicuous positions. Wash deck buckets shall not be accepted as fire buckets.

XXIII.—At least two smoke helmets and a safety lamp of an approved type shall be included in the fire extinguishing equipment of vessels and the helmets shall be stowed separately. The members of the crew shall be practised regularly in their use.

Smoke helmets and safety lamp.

XXIV.—The necessary emergency fire appliances such as knives, axes and hand lamps shall be kept in places readily accessible at all times from different parts of the ship.

Emergency appliances.

XXV.—Fire drill shall be observed at least once a week on board all vessels and during such drill all fire appliances shall be put into use and the fact entered in the Log Book. The great utility of woollen or asbestos blankets for smothering small fires shall always be impressed on all persons taking part in a fire drill.

Fire drill.

XXVI (1).—The fire apparatus shall be placed by the master under the special charge of one of the principal officers of the ship and of the ship's carpenter, who shall both be held responsible that the apparatus is kept in a state fit for immediate use. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire.

Custody of fire apparatus and fire patrol.

(2) A continuous patrol system shall be organised so that any outbreak of fire may be promptly detected.

XXVII (1).—The cargo of every ship shall, before she leaves port, be properly stowed away, and the decks shall be cleared of any loose straw, hay and other inflammable material. Any goods which are dangerous by reason of their inflammability or liability to explosion shall be stowed, subject to the provisions of any law or rules in force, in such manner as to safeguard the ship from danger of fire or explosion.

Stowage of cargo and disposal of inflammables.

(2). Before a ship leaves port, every passenger shall deliver up any lucifer matches, gunpowder or other inflammable article in his possession.

Use of naked lights and spirits.

XXVIII.—Naked lights shall not be used in the holds or store-rooms or between decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Casks or drums containing spirit shall not be opened in the hold but shall be hoisted on deck for the purpose.

F.—*Appliances for making Signals of Distress.*

Signals of distress.

XXIX.—Any of the following commonly recognised night signals of distress may be used either together or separately :—

(1) A gun or other explosive signal fired at intervals of about a minute.
(2) Flames on the vessel (as from a burning tar or oil barrel).
(3) Rockets or shells, throwing stars of any colour or description fired one at a time at short intervals.
(4) A continuous sounding with any fog signal apparatus.

Means of making signals of distress to be provided.

XXX.—All ships shall be provided with the means for making signals of distress at night specified in rules XXXI to XXXIV, or, in lieu thereof, with such other means of making signals of distress as have been previously approved by the Local Government.

Gun.

XXXI (1).—One gun at least 3½ inches in the bore, or one mortar at least 5½ inches in the bore, shall be carried on all ships, with 24 charges of ammunition in the case of foreign-going ships, and 12 charges in the case of home-trade or excursion passenger ships.

(2) Each charge shall contain 16 ozs. of powder in a flannel bag. The necessary requisites for firing the gun, *namely*, ramrners, sponges, wads, priming wires, friction tubes, powder flask, with fine powder for priming and means for firing and withdrawing the charges shall also be provided.

(3) Approved socket distress signals and sound signal rockets may be carried in lieu of a gun, provided that the number of signals so carried shall be equal to the number of charges of ammunition required under sub-rule (1).

Deck flares.

XXXII.—Two deck flares, self-igniting in water, shall be provided in every ship. Such deck flares shall be capable of burning brightly for at least 40 minutes. Full instructions for use shall be attached to each flare, and suitable receptacles for containing the water required for their combustion shall be provided, efficient means being adopted for ensuring a free flow of water to the bottom of the light.

Rockets and socket signals.

XXXIII (1).—Twelve rockets or shells, throwing stars of any colour or description, shall be supplied, each rocket containing 16 ozs. of composition.

(2) Approved socket distress signals may be supplied in lieu of rockets, provided that the number of signals so supplied shall be equal to the number of rockets required under sub-rule (*1*). If socket signals are also carried in lieu of a gun and charges of ammunition, the number shall be equal to the total number of charges of ammunition and of rockets required under sub-rule (*1*) of rule XXX and sub-rule (*1*) of this rule. Socket signals shall be fired only from the sockets supplied by the makers of the signals.

(3) The socket used for firing the socket signals shall in all cases be fixed at an angle of about, but not less than, 20 degrees from the perpendicular, so as to obviate the risk of a signal falling on the vessel's deck if it fails to rise to the usual height. The sockets shall be of sufficient strength, and of such a gauge as to ensure that the signal will rise to a safe height before exploding.

(4) In all cases where socket signals are carried there shall be at least two sockets, one forward and one aft, on opposite sides of the vessel.

Life-buoy lights.

XXXIV.—Life-buoy lights, all of which shall open and release automatically and be self-igniting, and provided with means for attachment to life-buoys, shall be supplied in every ship for half the number of life-buoys carried subject to a maximum of six. Life-buoy lights fitted with prickers shall not be accepted. Ships fitted with bridges shall carry a life-buoy in beckets or cleats attached to or adjoining each side of the navigating bridge in such a manner as to admit of their instantaneous release and to ensure their dropping clear of the ship's side. Each such life-buoy shall have a self-igniting light attached to it. The other life-buoy lights shall be distributed among and attached to the other life-buoys to the Surveyor's satisfaction. All of the life-buoy lights shall be capable of burning brightly in water for at least 40 minutes. Full instructions as to how the lights should be used shall be attached to each of them.

Testing and renewal of signals.

XXXV.—All pyrotechnic signals shall be clearly and permanently marked or stamped with the date of manufacture. Adhesive labels or painted figures alone shall not be accepted in lieu of such marking or stamping. Where sheet brass labels are used in contact with tin cases, the brass plates shall be properly soldered on and there shall be no corrosion of the canister.

XXXVI.—(1) A separate, detached and completely enclosed receptacle shall be provided for each of the following kinds of explosives :—

Stowage of signals and combustibles.

(1) gun-powder or cartridges made therewith ;
(2) rockets ;
(3) socket signals ;
(3) deck flares and life-buoy lights ;
(5) any other description of pyrotechnic signals.

(2) Such separate receptacles shall not be made merely by divisions or partitions in a cupboard or locker or chest, but each such receptacle shall be a separate magazine, exclusively appropriated to the keeping of explosives of the kind in question. Charges of powder, if carried, shall be contained in flannel bags, and the magazine in which they are kept shall be made of copper and strongly constructed. To prevent injury to the rockets and other signals, the receptacles shall either be internally divided in such a way that the signals can be stowed vertically, or they shall be of roughly the same length as the signals but sufficiently narrow to prevent the signals being turned round. The lids shall be secured by hinges or brass screws so as to permit of an inspection being made without injury to the case. The receptacles shall, where possible, be kept in a house on deck, and stowed or ranged as far apart as circumstances will permit so that in the event of spontaneous combustion, or of risk of any sort arising, any of the cases may be at once removed.

Where the socket signals are supplied by the manufacturer in wooden boxes with a tin box inside containing the friction tubes, no other receptacle shall be required for the latter.

(3) No article of an explosive or highly inflammable character shall be carried in any room or place in which any receptacle containing distress signals is deposited.

G.—*Penalty.*

XXXVII.—Whoever does any act in contravention of any of the provisions of rules XII to XXXVI shall be punishable with fine which may extend to two hundred rupees.

2. Rules XVIII, XIX and XX of the said rules s all be renumbered XXXVIII, XXXIX and XL, respectively.

Lot No. II.—Undivided one-half or equal part or share in all that messuage or dwelling-house and godown together with the piece or parcel of land thereunto belonging known as No. 2-1, Noyan Sur Lane in Sutanutty in the north division of the town of Calcutta containing by estimation 4 cottahs more or less and bounded on the north by No. 3, Noyan Sur Lane, on the south by No. 2, Noyan Sur Lane, on the east by No. 4, Noyan Sur Lane, and on the west by Noyan Sur Lane.

From the searches made in the office of the Registrar of Assurances, Calcutta, from 1865 to May 1925 it appears that the following encumbrances affect the above two lots, namely :—

(*a*) Deed of charge, dated 29th November 1923, executed by Surendra Nath Shaha Chowdhury in favour of Nanda Lal Chowdhury in respect of his one-fourth share in Lot No. II for Rs. 7,000 with interest thereon at 12 per cent. per annum with quarterly rests and registered in Book I, Volume 37, pages 109, being No. 727 of 1924.

(*b*) Deed of charge, dated 16th February 1924, executed by Surendra Nath Shaha Chowdhury in favour of Nanda Lal Chowdhury in respect of his one-fourth share in Lots Nos. I and II for Rs. 10,000 with interest at 12 per cent. per annum with quarterly rests and registered in Book I, Volume 37, page 105, being No. 726 of 1924.

(*c*) Indenture of Mortgage, dated 23rd August 1924, executed by Surendra Nath Shaha Chowdhury in favour of Jogendra Nath Shaha Chowdhury in respect of his one-fourth share in Lots I and II for Rs. 5,100 with interest thereon at 12 per cent. per annum with quarterly rests and registered in Book I, Volume 88, page 232, being No. 3632 of 1924.

(*d*) Deed of gift, dated 28th Agrahayan 1331 B.S., executed by Dhirendra Nath Shaha Chowdhury in favour of Srimati Anilabala Chowdhurani in respect of his one-fourth share in the Lots I and II registered in Book I, Volume 150, page 5, being No. 830 of 1924. The said Srimati Anilabala Chowdhurani filed a claim in this Hon'ble Court against the attachment in respect of the above two lots on the footing of the said alleged Deed of Gift, but the same was on the 10th July 1925 dismissed with costs.

The sum for the recovery of which the sale has been ordered is Rs. 4,353-3-6 with interest thereon at 6 per cent. per annum from 24th February 1925 until realization and for the costs of this suit and costs of this execution.

The conditions of sale may be seen at the office of the Sheriff of Calcutta on any day during office hours before the sale and will be produced at the time of the sale.

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the Summer *Til* Crop of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1921-22, the area under *til* in Bengal has represented some 4·8 per cent. of the total area under *til* in British India.)

Character of the season.—The weather was favourable at the beginning for the field operations. During the early period of growth the crop suffered from drought, but later on continuous and excessive rain during the period from second week of April to the end May adversely affected the growth, and caused considerable damage, especially in the low-land tracts of North and East Bengal. The season, on the whole, has been an unfavourable one for the crop.

Acreage.—The area sown this year is reported to be 105,600 acres as against 107,400 acres last year.

Outturn.—From the estimates furnished by the District Officers, the average outturn of the crop for the province works out at 64 per cent. of the normal this year as against 62 per cent. last year. Taking the normal yield at 6¼ maunds per acre, the gross outturn for the province is estimated at 15,200 tons this year as against 15,000 tons last year, or an increase of about 1·33 per cent.

CALCUTTA, THE 4TH AUGUST 1925.

RESOLUTION—No. 2108Edn.

THE Government of Bengal has had under consideration for some time past the question of the future of the Government Commercial Institute, Calcutta, its management and control, its curricula, and its development and expansion. At present it provides a day course of instruction to students who seek to qualify for employment in mercantile offices, and it has also evening classes intended mainly for the benefit of those already employed in such offices. The day course which extends over two years provides for instruction in certain compulsory and certain optional subjects as shown below :—

(I) Compulsory subjects.

(*a*) English (Modern) and specially English correspondence, including commercial correspondence, letter drafting and *precis* writing.
(*b*) Arithmetic, including commercial and mental Arithmetic.
(*c*) An Indian Vernacular.
(*d*) Commercial Geography.
(*e*) Book-keeping (Junior).

(II) Optional subjects.

Shorthand and Typewriting.

Courses of evening lectures are delivered in the following subjects :—

(*a*) Book-keeping (Elementary).
(*b*) Book-keeping (Advanced).
(*c*) Shorthand (Theory).
(*d*) Shorthand (Speed).
(*e*) Typewriting.
(*f*) English (including commercial correspondence, letter drafting and *precis* writing).
(*g*) Outlines of Political Economy.
(*h*) Banking and Currency.
(*i*) Annuities and Insurance.
(*j*) Mercantile Law.
(*k*) Accountancy and Auditing.

A student may take any combination of the above subjects.

2. The Bengal Retrenchment Committee, which was appointed by the Government of Bengal in 1922 to enquire into the possibilities of effecting economies in the administration of the province, recommended *inter alia* that the Commercial Institute should be placed in the hands of a board of management consisting of two representatives of the Bengal Chamber of Commerce, two representatives of the Calcutta Corporation, and one representative each of the Calcutta Trades Association and the Bengal National Chamber of Commerce. They proposed that Government should give the institution an annual grant of Rs. 15,000 for three years, and that the position should be reviewed at the end of that period. The Government of Bengal, though they lay no particular stress on the precise sum mentioned, are of opinion that the recommendation of the Committee deserves careful consideration, especially in view of the fact that the Committee contained members of the commercial community whose advice on the subject of commercial training is entitled to carry great weight.

3. There is no doubt that the Institute has justified its existence as a pioneer institution for commercial education. The day course is definitely vocational in its nature and well adapted to produce a capable clerk, while the evening course is calculated to improve the business knowledge of a clerk or a commercial assistant already in employment. Circumstances have, however, altered greatly in recent years. There is a growing demand

for commercial training as shown by the establishment of privately managed institutions, which offer training in subjects like shorthand, typewriting and book-keeping. Subjects such as Political Economy are taught in Colleges, and Government subsidises the teaching of commercial subjects. There are proposals for improving the Commercial Institute by the appointment of a highly qualified Principal and by opening of Accountancy and Auditing classes with a view to the institution of an examination to be recognised by the Government of India. It has also been suggested that the Government Commercial Institute should be affiliated to the Calcutta University which already grants degrees in Commerce.

4. In view of recent developments it is hardly necessary for Government to maintain under its direct management and control a special Institute, comparatively expensive, even if it be held that it is convenient to have an institution in which various commercial subjects are taught under the same roof. They feel that it is hardly the function of Government to undertake the direct management of a commercial training institute except as a matter of pioneering, and that it is debatable whether such an institution should be entirely a charge upon Government. The Government Commercial Institute exists mainly for the benefit of the commercial world. It provides mercantile firms with cheap well-trained clerks and imparts to men already in their service education which is likely to be useful to them in business. At the same time Government are receiving frequent appeals for assistance to commercial education in other institutions. It is financially impossible for Government, at any rate for the present, to meet these appeals and at the same time to develop the Institute into a high grade College of Commerce.

5. In these circumstances, the Government of Bengal consider it necessary that the whole question should be reviewed by a mixed committee consisting largely of representatives of the commercial organizations of Bengal with whom should be associated a few educationists and others interested in the subject. The Government of Bengal are therefore pleased, in consultation with the mercantile bodies mentioned below, to appoint a committee consisting of the following members to enquire into the question :—

(1) The Director of Public Instruction, Bengal	Chairman of the Committee.
(2) Rai Sahib G. K. Sen	Principal (offg.), Government Commercial Institute, Member and Secretary.
(3) Mr. H. E. Stapleton	Principal, Presidency College.
(4) Mr. W. Stather Hale, O.B.E. ...	Registrar, Joint Stock Companies, Bengal.
(5) Mr. H. C. Jewell, A.C.I.S. ...	Representing the Calcutta Trades Association.
(6) Mr. Prabhu Dayal Himatsinka, B.L. ...	Representing the Marwari Chamber of Commerce.
(7) Mr. F. E. Winmill, of Messrs. Gillanders Arbuthnot & Co.	Representing the Bengal Chamber of Commerce.
(8) Mr. T. Law, of Messrs. Price, Waterhouse, Peat & Co.	
(9) Rai A. C. Banerjee Bahadur, M.L.C. ...	Representing the Bengal National Chamber of Commerce.
(10) Mr. Ashraf Jamall	Representing the Central National Muhammadan Association.
(11) Mr. Razuar Rahman Khan, M.A., B.L., of Messrs. Karim Buksh & Bros.	

6. The Committee is requested—

(*a*) to advise Government on the value, as a preparation for a commercial career, of all the courses of commercial instruction at present being followed in this province with the aid of Government or directly maintained by it and to make recommendations, if necessary, for their revision and consolidation on sound practical lines,

(*b*) to make recommendations for the future development of the Commercial Institute, with due regard to the fact that only very limited funds for its development are likely to be available from provincial revenues, and

(*c*) to report on the feasibility of the suggestion that the Government Commercial Institute should become an aided institution, directly managed not by Government but by representatives of the Bengal Chamber of Commerce and other important commercial bodies in Calcutta, future developments being aided, but not entirely financed, by Government.

ORDER.—Ordered that a copy of the Resolution be forwarded to the Director of Public Instruction, Bengal, and Chairman of the Committee, to other members of the Committee, and that it be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

J. H. LINDSAY,

Secretary to the Government of Bengal (offg.).

NOTIFICATIONS.

No. 3596Com.—The 4th August 1925.—The following report submitted by the Commissioner for Workmen's Compensation, Bengal, on the working of Act VIII of 1923 in Bengal from 1st July to 31st December 1924 is published for general information.

J. A. WOODHEAD,
Secretary to the Government of Bengal.

Brief report on the working of the Workmen's Compensation Act (VIII of 1923) in Bengal, from 1st July to 31st December 1924.

The Workmen's Compensation Act (VIII of 1923) came into force on 1st July 1924. In order to secure uniformity on doubtful points, a whole-time Commissioner was appointed for Bengal, as was also done in Madras and Bombay.

The number of cases instituted during the first six months was very small. Only one application was made under section 10, which provides for contested claims, but the claim was promptly paid. There were no proceedings for review or commutation. The small number of disputes was due principally to the novelty of the legislation, but also among other things to the operation of Schedule I, which, by providing fixed and arbitrary compensation for injuries which admit of exact definition (such as loss of limbs), excludes a fruitful source of dispute.

Employers are required by the Act to deposit compensation with the Commissioner in all cases of fatal accidents. Twenty-six such deposits were received, totalling Rs. 22,642-2, out of which Rs. 11,840-10 had been awarded to dependants before the close of the year. The Act gives the Commissioner power to invest money awarded to minors for their benefit. Rupees 3,350 was thus invested.

The Act also provides that all agreements between employers and workmen for payment of lump sums as compensation under the Act must be registered by the Commissioner. Seventeen memoranda of agreement were presented for registration, of which 8 were registered, 7 refused and 2 were pending at the end of the year. The refusals were on technical grounds, not for inadequacy of compensation, one such ground being that the agreement was for payment of a compassionate grant, with denial of liability on the part of the employer. Most of the workmen affected by the Act in Bengal being up-country men, the notices, which the Act requires to be issued before an agreement can be registered, often cannot be served upon them, and it would be convenient if employers when possible would send the workman himself to the Commissioner with someone authorised in writing to represent them.

The Act further lays upon all employers of workmen as defined therein (with few exceptions) the duty of submitting an Annual Return (as laid down in Government of India notification No L.-1189, dated the 26th June 1924), showing the number of injuries for which they have paid compensation and the amount of compensation paid. The returns for the first six months were not reliable, partly on account of the inadequacy of the instructions first issued. They show the total daily average attendance of workmen to be 663,073 and a total of Rs. 32,682 paid as compensation or nearly 10 pies per head.

The Government of India, by notification No. L.-1272, dated the 15th April 1925, have enabled employers who are insured, or members of associations of employers, to have their returns submitted in future by the association or insurance company, if approved by the Local Government. This year returns for many of the larger concerns were compiled by the Calcutta Claims Bureau and other associations of insurance companies, though they had to be submitted over the signature of the actual employers.

The following is a summary of the returns received :—

DEPARTMENT OF COMMERCE.

No. 555-S.

RESOLUTION.

SHIPPING.

Simla, the 25th July 1925.

Read :—

1. Letter No. 30-R.-22, dated the 3rd April 1922, from the Government of Burma, Finance and Revenue Department.
2. Letter No. 220, dated the 22nd May 1922, from the Government of Madras, Finance (Marine) Department.
3. Letter No. 2500-Mne., dated the 30th August 1922, from the Government of Bengal, Marine Department.
4. Letter No. 1380-C., dated the 16th February 1923, from the Government of Bombay, Marine Department, with their respective enclosures replying to Government of India, Commerce Department letter No. 6372, dated the 4th November 1921, on the subject of the recommendations made in the report of the Deck Passenger Committee, 1921.

1. This resolution relates to those portions of the report of the Deck Passenger Committee, 1921, which deal with the classification of voyages as long and short and with the minimum amount of space to be allotted to deck passengers under the Indian Merchant Shipping Act, 1923.

2. The Deck Passenger Committee and the maritime Local Governments are agreed that the present rules require amendment, but there is no unanimity on the details of the changes needed. The Government of India have accordingly formulated their provisional conclusions in the draft notification attached to this resolution. The rules now issued embody the principle of further subdivision of voyages which are now classed as short, and provide for an increase in space accommodation. The maritime Local Governments will be requested to report for inclusion in a special schedule, short voyages of less than 24 hours' duration between terminal ports, for which they advise special space allowances.

3. The space allowances have been expressed in the present form, viz., occupation space *plus* an airing space for each between deck passenger. A flat rate of space allowance, whilst it would have the appearance of simplicity, is open to the objection that it would make it appear permissible to carry passengers between-decks without permitting them access to the upper deck, where ventilation is freer.

4. Any suggestions on this draft notification should be received by the Government of India before November 1st.

ORDER.—Ordered that a copy of this resolution be forwarded to the Governments of Madras, Bombay, Bengal and Burma, with a request that the Local Governments, after consulting commercial and other interests affected, will communicate to the Government of India by the 1st November 1925 any alterations they consider necessary and a list of voyages of less than 24 hours' duration between terminal ports which they recommend should be specially scheduled together with the space allowance they advise for each such voyage.

D. T. CHADWICK,
Secretary to the Government of India.

Draft Notification.

In exercise of the powers conferred by section 192 of the Indian Merchant Shipping Act, 1923 (XXI of 1923), and in supersession of the notification of the Government of India in the late Department of Finance and Commerce, No. 1356, dated 14th March 1889, the Governor General in Council is pleased to prescribe the number of superficial and of cubic feet of space to be available for native passengers in native passenger ships in accordance with the order hereinafter set forth, and to direct that the said order shall over-ride the requirements on that subject of sub-sections (*1*) and (*3*) of section 176 of the said Act.

(6) that for seasons of fair weather, a native passenger ship performing a short voyage which, in ordinary circumstances, will not exceed seventy-two hours between the terminal ports, shall contain in the upper between-deck at least eight superficial feet and forty-eight cubic feet of space, available for each such upper between-deck passenger and on upper deck at least four superficial feet available for each such upper between-deck passenger and eight superficial feet available for each upper-deck passenger:

The following is a list of the superior staff of the Garden at the end of 1924-25 :—

Superintendent—Rai Bijay Krishna Basu Bahadur, C.M.Z.S.

Assistant Superintendent—Babu Somadev Ganguli.

Store-keeper—Babu Jugal Kishore Roy.

Overseer—Babu Niranjan Mukherji.

Clerk—Babu Tarak Chandra Chatterji.

Gate clerk—Babu Bepin Behari Chatterji.

The menial staff of the Garden at the end of 1924-25 comprised, in addition to temporary men who were engaged as required,—

1 Salutri.	14 Gardeners.
1 Jamadar.	3 Sweepers.
8 Durwans.	1 Chaprasi.
20 Keepers.	1 Carpenter.
2 Bhistis.	2 Cartmen.
1 Cook.	1 Syce.
1 Head gardener.	1 Scytheman.
	1 Night-watch.

The year under review has in all respects been normal, nothing of special interest having occurred or been undertaken. The standard generally has been maintained throughout the year up to its former level, both as regards the number and variety of exhibits in the collection and as regards the Garden itself.

The health of the animals as a whole throughout the year has been good, and the death rate normal.

The death rate amongst the birds has been considerably reduced, and no serious loss of any kind has occurred.

The ungulates maintained perfect health, and it is satisfactory to record that many have bred in the Garden.

Exception must be made in the case of the Small Carnivora House which suffered severely owing to an outbreak of Verminous Gastro-enteritis. Every precaution as regards isolation, thorough disinfection, fumigation, etc., was taken, and the disease was successfully stamped out within a fortnight, though not without casualties, which, however, were not excessive in the circumstances.

No new structural work has been undertaken, but improvements to existing buildings were effected, among them the thorough overhauling of the new Monkey House.

Linked wire-netting has proved far superior to ordinary wire-netting for which it was substituted, a course which is being followed wherever wire-netting requires renewal as far as possible.

The wire-netting of the Deer paddock was replaced with strong Crusader fencing.

Annual repairs to the buildings were effected as usual, of which the following alone need be mentioned :—

Dumraon House.—The inside walls were lime-washed and outside colour washed. The hand-railing was repaired and wire-netting repaired and renewed.

Sonebursa House.—Parts of the wooden roof of this building were renewed, and the whole roof was repainted. The plaster of the walls was repaired and the wooden doors and windows were repainted.

Barasingha Enclosure.—The shed was thoroughly overhauled and the roof renewed and repainted.

Sarnomoyi House.—Leakage necessitated repairs to the roof, and portions of the ceiling affected by leakage were replastered. Window frames and sashes were attended to, and the outer enclosure was repainted.

Small Carnivora House.—The inner dens and outer cages were sand-plastered, and three coats of lime-washing given. The iron partitions in several cages having perished were repaired and the flooring attended to. The drainage system and the water supply were put into proper order, and new sand was spread in the recreation enclosures.

Burdwan House.—The hand-railing was thoroughly repaired, and the wooden posts were renewed. The interior was whitewashed and the outside colour washed. The iron gratings were painted.

Refreshment Pavilion.—The wooden ceiling and the beams and posts were painted and the marble flooring repaired and polished.

The condition of the Garden has been well maintained throughout the year. The lawns and paths are in good order. Portions of the main drive were remetalled and many paths were repaired, and all the roads and paths were covered with surki-siftings. The flowers have been a special attraction to visitors. The Garden was awarded several prizes at the Agri-Horticultural Society's Flower Show held in February 1925 for its exhibits of annuals.

The question of labelling the trees in the Garden has been under the consideration of the Committee for a long time, and it is satisfactory to report that during the year nearly all the trees have been labelled with their botanical and popular names.

The finances of the Garden are satisfactory to the extent that expenditure is balanced by income. There was a welcome increase in the receipts from visitors, which amounted to Rs. 67,706-13 as against Rs. 64,420-7 in the previous year. The balance in favour of the Garden is partly accounted for by the difference amounting to Rs. 3,286-6. This is a substantial advance upon the previous year's increase, but it would be too much to hope for progressive increases from this source year by year. The balance shown in the accounts cannot be taken as an index of financial prosperity. The margin between income and expenditure is slight: provision has to be made for the replacement of unexpected losses in the collection, and it is only by the exercise of economy in years when no serious drain upon their resources occurs that the Committee can find themselves in a position to carry out schemes of improvement which must meanwhile be deferred, or to import very desirable but expensive additions to the collection.

The following is a comparative statement of visitors and receipts for recent years:—

	Number of visitors.	Receipts.
		Rs. A.
1922-23	854,003	63,393 15
1923-24	877,478	64,420 7
1924-25	943,553	67,706 13

A large number of children under four years of age and school children attended by their teachers were admitted free. On the occasion of the Fancy Fair about 17,000 people visited the Garden.

In addition 41,034 persons visited the Garden on free days. Detailed statement of the number of visitors and receipts appears in Appendix B.

The thanks of the Committee are due to those ladies and gentlemen who have added to the zoological collection by donations, a list of which is given in Appendix C. Thanks are also due to those who kindly offered to present animals to the Garden, but whose offers could not be accepted either because the particular species of animals was already sufficiently well represented, or owing to want of accommodation.

The Corporation of Calcutta at their meeting held on the 19th March 1924 sanctioned a grant of Rs. 22,495-8 to the Garden for the year under report, and the amount of the rate bills in respect of the Garden was adjusted against the sanctioned grant as they fell due. The Committee desire to take this opportunity of expressing their gratitude to the Corporation of Calcutta for their generous contribution to the funds of the Garden.

Thanks are also due to the Officer Commanding and Officers of the 3rd Battalion, 17th Dogra Regiment, for permitting their regimental band to play at the Garden on Tuesday afternoons free of charge from the month of January 1925.

The Committee are much indebted to those members of the public who send their old and broken down horses to the Zoological Gardens.

P. L. BUCKLAND,
President.

A. M. McGRIGOR,
Honorary Secretary.

RESOLUTION ON THE REPORT OF THE COMMITTEE APPOINTED TO CONSIDER AND ADVISE GOVERNMENT AS TO THE STEPS TO BE TAKEN FOR THE RESTORATION AND DEVELOPMENT OF THE TIBBI OR UNANI SYSTEM OF MEDICINE.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Medical.

CALCUTTA, THE 30TH JULY 1925.

RESOLUTION—No. 1727Medl.

IN pursuance of a resolution which was moved in the Bengal Legislative Council and accepted by Government on the 14th July 1921, the Government of Bengal appointed the following Committee on the 26th August 1921 to consider and report, after taking such evidence as might be thought necessary, what practical steps could be taken for the restoration and development of the Tibbi or Unani system of medicine, with special attention to the question of teaching that system, under proper supervision and control, and subject to such modifications as might seem necessary :—

The Hon'ble Nawab Syed Nawab Ali Chaudhuri, Khan Bahadur, C.I.E. ...	President.
Dr Hasan Suhrawardy, M.L.C. ...	Secretary.
The Professor of Pharmacology, School of Tropical Medicine and Hygiene, Calcutta ...	Members.
Dr. M. E. Sufi, B.A., L.R.C.P.S., D.P.H , Assistant Director of Public Health ...	
Mr. H. S. Suhrawardy, Barrister-at-Law, M.A., B.SC., B.C.L., M.L.C.	
Hakim Md. Shabbir	
Rai Haridhan Dutt Bahadur, M.L C. ..	
Maulvi S. Mahbub Ali, M.L.C.	
,, Yaquinuddin Ahmed, M.L.C. ..	
,, Muhammad Kazem Shirazi ..	
Shah Syed Emdadul Haq, M.L.C.	

The names of the following gentlemen were subsequently added to the Committee :—

Maulvi Hakim Habibur Rahman ..	Members.
Shafa-ul-Mulk Hakim Abdur Rashid Khan, Khan Bahadur.	
A. F. M. Abdul Ali, Esq., M.A., Assistant Secretary to the Government of India and Keeper of Imperial Records.	

The Committee held four meetings and reported to Government in December 1924. The report was written by Major Hasan Suhrawardy. A questionnaire was issued to 272 Hakims of standing in different provinces and to members of the All-India Tibbi Conference. The response to the questionnaire was disappointing, and the report states that the information thus obtained was "so meagre and inadequate as to be negligible". It was therefore decided at a meeting of the Committee held in April 1923 that the present methods of teaching in vogue in the different Tibbi schools should be studied at first hand : Major Suhrawardy and Hakim Habibur Rahman, a

Dacca practitioner of standing, were deputed to visit different centres of Tibbi learning for this purpose. In March 1924 these gentlemen visited—

(1) the Tibbia College of Delhi,
(2) Takmil-ul-Tib Institution of Lucknow, and
(3) Zubdatul Hukma and Hakim Hazeque classes of Islamia College in Lahore.

In Lucknow there are only Arabic classes, but in Delhi and Lahore instruction is given both in Urdu and Arabic; in Delhi and Lucknow the course of study is spread over four years, and at Lahore over two years and a half. Apparently the proposal to revive and develop the Tibbi system on modern lines was regarded with some suspicion by Tabibs, and the Committee are indebted to Major Suhrawardy and his colleague Hakim Habibur Rahman Sahib for the information on which their recommendations are based, rather than on the evidence, oral or written, of Tibbi practitioners.

Rai Bahadur Dr. Haridhan Dutt has not signed the report: in his brief note of dissent, it is implied that he was unable to arrive at any conclusion as to the desirability or feasibility of encouraging the Tibbi system in the absence of any enquiry by the Committee into its merits.

Major Chopra, I.M.S., is not in agreement with the views stated in the more important chapters of the report, but approves proposals (1) to offer scholarships to induce Madrasah students to take up the Tibbi studies, and (2) to establish "an inexpensive kind of modern Tibbi School in association with an out-patients' department and dispensary at Calcutta and Dacca".

Dr. M. E. Sufi makes some detailed criticism of the report, but appears to accept its main proposals.

Mr. A. F. M. Abdul Ali accepts Major Suhrawardy's scheme, while the report is adopted in all essentials by the remaining members of the Committee. with the exception of Shah Syed Emdadul Haq, M L.C., who did not attend the meetings.

2. Major Suhrawardy's interesting report sketches briefly the origin and development of the *Ilm-i-Tibb* (Tibbi system), its debt to the Ayurvedic and Greek (Unani) systems of medicine, and its influence on western studies and methods. He points out that the Tibbi or Unani system has languished in Bengal partly owing to the popularity of allopathic studies in this province and partly owing to the decline of Moslem influence. In any case there are now comparatively few practising Hakims of high standing in rural Bengal or even in Calcutta itself. It is suggested that the encouragement of the Tibbi system might provide a cheap and yet sufficiently skilful type of doctor for the needs of the Muhammadan community in rural areas, and might provide employment for many of the Maulvis who, after a course of study at the Madrasahs, have difficulty in finding a market for their wares.

3. The proposals made by the Committee are briefly as follows:—

(1) the establishment of Tibbi schools in Bengal to be associated for clinical training with the recognised Government medical schools of the province;
(2) the provision of scholarships for the purpose of sending selected students to the Tibbi colleges at Delhi and Lucknow, these scholars being bound by agreement to enter a rural medical service or to practise in rural areas with the help of subsidies to be granted by local bodies, on the completion of their course; and
(3) arrangements for post-graduate training of students qualified in the Tibbi system, under well-known Hakims in different parts of India.

In connection with the first proposal, it is recommended that Tibbi schools should first be opened at Calcutta and Dacca, and subsequently at Chittagong and Hooghly: each school to have two branches, in one of which the medium of instruction would be Urdu, while in the other branch, which would comprise more advanced studies, the teaching would be in Arabic, a knowledge of which is considered necessary for post-graduate research work. It is proposed that the course should extend over three years, and that 50

students should be admitted each year into a school. The cost of two schools is roughly estimated at Rs. 24,000 per annum. The cost of sending 50 bonded students each year to the schools of Delhi and Lucknow is estimated at Rs. 54,000 per annum, while the cost of post-graduate work under the guidance of renowned Tabibs at Delhi, Lucknow and Calcutta is estimated at Rs. 78,000 per annum.

4. It is implied that the expenditure on the above schemes should be met entirely by the state, and there is no suggestion that any fee should be charged to students. It is to be considered whether there is justification for undertaking the training of students in the Unani system at the expense of the state.

There can be no doubt that the Tibbi system in certain other parts of India enjoys considerable popularity and therefore obtains real support from the public. There is a demand for the Hakims who pass out from the schools referred to above, and no one, whatever view he may hold as to the relative merits of the Tibbi system and the Western school, will doubt that the trained Tabibs of Delhi, Lucknow and Lahore are an important agency for the relief of human suffering in the upper parts of India. In Bengal, however, there is a wide demand for increased facilities for medical education in accordance with western methods. The medical schools already established by Government are unable to provide accommodation for the numerous candidates who seek admission, and the Government of Bengal are already taking steps to provide additional schools of this type with the object of increasing the number of qualified practitioners. The recurring cost of medical schools such as those established at Burdwan, Dacca and Mymensingh amounts roughly to about Rs. 35,000 per annum, and it is by no means certain that the proposals of the Committee are likely to produce trained Tabibs at a very much cheaper rate. But in the opinion of the Governor in Council, the chief defect in the Committee's proposals is that they are designed to produce a class of practitioners following a system of medicine which admittedly requires to be supplemented by a study of such vital subjects as midwifery, gynæcology, surgery, bacteriology and the whole science of preventive medicine. The proposals of the Committee aim at giving a mere smattering of the western system to students who in educational qualifications are much inferior to the type of students now seeking admission to the recognized medical schools. Government have deliberately set themselves to promote the spread of western medical science and have taken steps to control and standardize the training and examination of medical students in Bengal. Many private schools which had neither the means nor facilities to train and qualify students for general medical practice have been closed, and a high standard is gradually being built up. It would not be possible to introduce Tibbi students into the recognised medical schools for clinical training, and the Governor in Council is of opinion that any definite recognition by Government, such as the Committee proposes, of Tibbi studies will inevitably drive Government ultimately into accepting full responsibility (involving heavy expenditure) for the continuance and development of a system which is in so many respects utterly different from the system already transplanted with such admirable success into India. Government are not satisfied that there is any need to subsidize Tibbi studies proper, or that there is justification for the state incurring expenditure in seeking to engraft some limited knowledge of Western methods and theory on to the Tibbi system. And the lack of response by the general public and by Tibbi practitioners to the enquiries of the Committee suggests that there is no strong popular demand for an attempt to multiply the followers of Avicenna.

The failure of the Tibbi system to include preventive medicine or the study of public health within its scope is moreover a serious drawback—especially in the India of the present day. The importance of this branch of medicine to Bengal is recognised more and more widely every day, and Government have recently formulated proposals for the creation of a public health organisation in rural areas, combining both curative and preventive functions.

The Governor in Council, after a careful study of the Committee's interesting report, is of opinion that there is not adequate justification for the expenditure of public funds on the scheme therein outlined. At the same time Government desire to express their thanks to Major Hasan Suhrawardy for the interest which he has shown in this enquiry: he devoted a great deal of his time at considerable personal inconvenience along with Hakim Habibur Rahman Sahib, to whom special thanks are also due, to the tours made in North-Western India and to the compilation of information dealing with the past history of the *Ilm-i-Tibb*. The Governor in Council desires also to thank the other members of the Committee who assisted Major Suhrawardy in his labours.

Secretary to the Government of Bengal.

First Forecast of the Sugarcane Crop of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under sugarcane in Bengal has represented some 7·6 per cent. of the total area under sugarcane in British India.)

Character of the season.—The weather at the outset was generally favourable, both for planting and for growth of the crop. Continuous wet weather during the months of April and May adversely affected the young plants in certain low-lying tracts of North and East Bengal. Light rainfall in June helped the growth and the present outlook of the crop is promising on the whole.

Area planted.—The total area planted with sugarcane for the province is reported to be 212,500 acres this year against 203,500 and 206,200 acres reported respectively in the corresponding and final forecasts of last year.

DEPARTMENT OF AGRICULTURE, BENGAL.

First Forecast of the Cotton Crops of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops :—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State, and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. *As the "late" crop has not yet been sown, this forecast deals only with the "early" crop.*

Character of the season.—In West Bengal districts the weather was generally favourable throughout, while in East Bengal some difficulty was experienced at the sowing season owing to excessive rain. Later on moderate rain, however. improved the prospects and the present condition, so far, is satisfactory.

Area sown.—The area sown is reported to be 75,257 acres this year as against 75,348 acres reported in the corresponding forecast of last year.

RESOLUTION ON THE REPORT ON THE POLICE ADMINISTRATION IN THE BENGAL PRESIDENCY FOR THE YEAR 1924.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

Police.

CALCUTTA, THE 28TH JULY 1925.

RESOLUTION—No. 2812Pl.

READ—

The Report on the Police Administration in the Bengal Presidency for the year 1924.

1. Mr. T. C. Simpson officiated as Inspector-General of Police throughout the year.

2. **Recruitment and Health.**—The total sanctioned strength of the subordinate ranks remained practically unchanged at 24,039, while the number of officers and men actually employed against this sanction had risen by the end of the year to 23,647. There must of course always remain a small margin between the two figures. This satisfactory result was due principally to the brisk recruitment to the rank of constable in which 2,461 men were enrolled, as against 1,839 in the previous year. Of the new recruits 726 were found locally, 48·8 per cent. of these being Muhammadan. The figures for communal proportion in the subordinate ranks as a whole show 32·6 per cent. Muhammadans above the rank of Assistant Sub-Inspectors and 29·3 per cent. Muhammadans in this and the lower ranks. There is no improvement to record either in point of general health or the adequacy of the leave reserve ; on the contrary the admissions to hospital have in fact increased by 2,000 in the last three years. Funds were at last found however for the purchase of an instalment of such necessities as waterproofs and quinine.

3. **Discipline.**—The Inspector-General gives much attention in his report to statistics bearing on the discipline and conduct of the force. The dominant features are a further heavy increase in the number of departmental punishments which have risen in two years from 8,855 to 12,145, accompanied by a decrease in the number of criminal cases brought against the police and of convictions in these cases. The number of convictions was only 36, the lowest on record, and amounted to less than 10 per cent. of the cases filed and pending during the year. There may at first sight seem something incongruous in the trend of these figures for departmental and judicial punishments, but the explanation may be taken to be that the efforts made in the last two years to tighten up discipline in the force are having a beneficial result on the relations of the force with the public. The Governor in Council sympathises with the Inspector-General of Police in his comments on the persistently disparaging attitude of a large section of the Press, which militates so seriously against the cultivation of a greater goodwill towards the police, whatever efforts the force may make to merit a favourable public opinion.

4. **Administrative changes.**—Several administrative changes of importance were made during the year, some in further pursuance of the policy of retrenchment and others due to the discovery that retrenchment had gone too far. It was found necessary for instance to re-open the classes for Sub-Inspectors at the Police Training College, Sardah, when the deplorable results of closing this avenue of training to young officers became apparent. Similarly the appointments of Additional Superintendents of Police at Tippera and Faridpur which had been held in abeyance had to be revived and a temporary Additional Superintendent was also posted to Mymensingh. On the other hand progress was made with a retrenchment measure which had necessarily taken time to work out, namely, the revision of thana

jurisdiction in order to abolish small thanas. Seven thanas were actually abolished during the year and twenty-eight in all are to be eliminated. This measure has however been consistently unpopular with local people. The system of pooling launches as a means to retrenchment reached its logical conclusion in the decision to transfer to the Marine Department all launches, other than those of the River Police, and also the River Police Dock-yard at Nabiganj.

A long overdue improvement in Railway Police administration was effected by making the jurisdiction of the Railway Police in Assam and Bengal coincide with the provincial boundaries, and this change necessitated opening a new Railway Police subdivision under an Assistant Superintendent at Chittagong.

Something was done to meet the difficulty of the inadequate leave reserve, and to afford training to Assistant Sub-Inspectors and head-constables for the higher ranks, by permitting the Inspector-General to entrust to such officers, within certain definite limits, the duties of Sub-Inspectors on leave. The cadre of the Asansol subdivision was separated from that of the Burdwan district. Much work was also done in the revision of inspection and training manuals.

5. **Crime statistics.**—The statistics for all offences against person, property and public tranquillity show 110,278 cases in 1924 as against 108,392 in 1923 and 44,314 persons before the Courts in the latter year as against 48,953 in the former. Notwithstanding this slight increase of cases in the returns as a whole, there are clear signs of an improvement in serious crime when the details are examined. For instance the total number of true cases of theft and burglary which are the index of professional crime decreased, respectively, from 33,863 to 31,865 and from 22,475 to 21,780, the percentage of decrease in these two categories as a whole exceeding 4 per cent. The number of burglaries in the year has in fact decreased by over 11,000 since 1919. There was a further decrease in the number of riots, which have been falling steadily since the disturbed period of 1921-22, and stood at 675 as against 759 in the preceding year. The crime of dacoity is still far from being reduced to its level in years before the war, and there was in fact a very slight increase in the number of cases committed during 1924, these numbering 631. The Inspector-General is able to state, however, that at the time of submitting his report the figures for dacoity in the current year show a marked reduction below those for the year under review; and the Governor in Council hopes for further results from the measures taken to counteract this peculiarly persistent form of crime. He recognises that retrenchment brought in its train the reduction of some elements in the force which were directly or indirectly of special value for this purpose. He has read with interest the Inspector-General's remarks on the method of preparation of work programmes by Circle Inspectors, to which the measure of success in reducing crime already attained during the year is largely ascribed.

6. **Village defence parties.**—It has been a common complaint in the past that the police were hampered in coping with dacoity by the apathy of the public, and one of the most welcome features of the year has been the rapid spread of the village defence party movement. In the district of the 24-Parganas alone the number of such parties increased from 29 to 134. Valuable work was done by several of these parties in resisting, or following up, gangs of dacoits; and on more than one occasion a free fight with the criminals has ended in the death, or capture, on the spot of members of the gang. Along with the constitution of such recognised parties there are signs of a new spirit of independence and self-protection on the part of the villagers, and many instances have been reported where they rallied to the house of a neighbour who was attacked by dacoits. The Inspector-General of Police has done all he can, with the full approval of the Governor in Council, to foster the village defence party movement, and numerous leaflets explaining its advantages and giving instances of its success have been circulated. The spirit of co-operation with the local police which lies behind the movement has a value of its own; and the Inspector-General rightly observes that the bare fact of the existence of such a party in a village is likely to deter criminals from operating in the locality.

7. **Criminal Investigation Department.**—The Criminal Investigation Department, with its strength reduced by retrenchment, had heavy work to cope with in both its branches. Revolutionary crime occurred in the districts no less than in Calcutta, and unfortunately with greater impunity. The Chittagong district gained an unenviable notoriety by the murder of a Sub-Inspector in May and a revolutionary dacoity in September, following on the dacoity with shooting in the same district in the previous year. The dacoity in September did not come before the Courts and the other two cases ended in acquittal. The difficult task of carrying out initial action under the Ordinance simultaneously and with secrecy in all districts on the 25th October was successfully accomplished; and from this point the outbreak of revolutionary crime diminished. Another important incident in which the police were faced with political animus and revolutionary activity was the Satyagraha movement at Tarakeshwar. The section of the Criminal Investigation Department which deals with organised criminal gangs and expert swindling had a number of important cases under investigation. A formidable wave of dacoity in the Gaibandha subdivision was checked by intensive methods, and enquiries were made into a series of frauds on the telegraph money order system.

8. **Special Police Forces.**—The river police continued its activities on a restricted scale; and the prevalence of river dacoities in the Khulna district goes to show that the retrenchment of this force has gone far enough. Statistics of railway crime show no marked variation, but a decrease is reported on the East Indian Railway; and the Inspector-General reports that the recent introduction of the watch and ward staff on this line has already reduced crime in the railway yards. A disquieting incident, the investigation of which reached no final result, was the attempt to derail the Darjeeling mail in November. The Eastern Bengal Frontier Rifles were inspected for the first time by the General Officer Commanding Presidency and Assam districts with flattering results. Officers and men are to be congratulated, on the General's opinion that they would render a good account of themselves if employed in a purely military capacity alongside regular troops.

9. **Chaukidari.**—Special interest attaches to the chaukidars at a time when the responsibility of the village authorities for the village watch is being evolved from the old system of control by the police and the Magistrate. As was to be expected, difficulties have sometimes been experienced in the adjustment of functions between the police and Presidents of union boards. The latter, for instance, regarding the chaukidar as primarily a village servant are apt to view with disfavour his employment on police patrols, while the thana officer cannot dispense with his assistance on this essential function. Though patrol work may take the chaukidar beyond his own beat, co-operation of this kind contributes of course to the security of all villages alike. It is a remarkable feature that in the same report, in which the Inspector-General has so much to say for village defence parties, he should have to record more than one instance of the chaukidar playing the role of dacoit, and his plea for more discrimination in the selection of chaukidars by the union boards seems well-founded. The low level of pay of course leaves a very limited field, though the statistics of the number and cost of chaudidars indicate a slight tendency to increase the pay while reducing their numbers. The average cost per head of the chaudidari force, numbering 81,220 in the year under review, amounted to Rs. 70·44 as against Rs. 69·95 in the previous year It is an unsatisfactory feature to find an unexpended balance of nearly a lakh of rupees in the reward fund at the end of the year. The attention of the Governor in Council has recently been drawn to the want of any proper audit for the equipment fund, which is also believed to show an unnecessarily high balance The chaukidari system in union board areas is still being conducted largely under the manual prepared for the Chaukidari Act; and confusion inevitably results It is hoped to remedy this state of affairs before long by the preparation of a new chaukidari manual for union board areas, with the special object of making clear to the Presidents of union boards their responsibilities in the supervision of the chaukidari force.

10. **Finance and Policy.**—The outstanding feature in police finance is that the expenditure for the year 1924-25 was no less than ten lakhs of rupees below the budget provision for the previous year. That provision itself was fixed at a time when retrenchment was in the air: and on this basis the police may fairly claim a contribution approaching ten lakhs to the efforts for retrenchment in provincial expenditure as a whole. Unfortunately just at the moment when retrenchment measures began to show their results, their effect has been obscured by the new demands made on the Bengal Police by the political situation. Nothing has yet been done to remedy effectively the want of proper housing for the District Police, and the Bengal Police have not the advantage enjoyed by the Calcutta Police in being able to show that a building loan would be remunerative on a purely financial basis. They can only put forward the complaint that a force which by the very nature of its duties is required to keep fit, and which it pays to keep fit, is still housed in cramped and unhealthy quarters, sometimes mere shanties, which have been more often condemned than repaired. It is reasonable enough for the force to expect that measures should be taken to remedy this evil once for all by a far-sighted building scheme; and discouraging as the attitude of the legislature to police housing has often been, the Governor in Council trusts that if such a scheme proves financially practicable it will be received in a friendly spirit.

11. The Governor in Council has read with pleasure the list of officers whose good services have been brought to his notice and desires to congratulate the Inspector-General and his force on the year's record. He particularly appreciates the patience displayed by all ranks in the face of prolonged provocation at Tarakeswar, and the improvement in the criminal statistics.

ORDER—Ordered that copies of the resolution be forwarded to the Inspector-General of Police, Bengal, Commissioner of Police, Calcutta, and all Commissioners of Divisions, for information.

Ordered, also, that the resolution be published in the *Calcutta Gazette*.

Bengal Police Service	Nil
Subordinate Civil Service	18
Subordinate Excise Service	Nil
Income Tax Department	3
Total ...	29

A separate announcement will be made regarding the number of appointments to be made to the Upper Division of the Secretariat Clerical Service.

No. 9173A.—The 15th August 1925.—In notification No. 6548A., dated the 26th June 1925, wherein rules to regulate the recruitment by examination for certain Provincial and other services in Bengal were published, it was stated that a separate announcement would be made regarding the medical examination of candidates and the physical standards to which they would be required to conform. It is accordingly notified hereby that candidates selected for appointment after the examination will, before appointment, be called upon to satisfy a Medical Board as to their fitness for appointment to Government service, and will be required to conform to the physical standards laid down in the regulations subjoined.

These regulations are published for the convenience of candidates and in order to enable them to ascertain the probability of their coming up to the required physical standard. But it must be clearly understood that the Governor in Council reserves to himself an absolute discretion to reject as unfit any candidate whom he may consider, after hearing the opinion of his medical advisers, to be physically disqualified for the public service ; and that his discretion is in no respect limited by these regulations.

Regulations as to the physical examination of candidates for appointment to the Bengal Civil Service (Executive), the Bengal Excise Service, the Bengal Police Service, the Subordinate Civil Service, the Income Tax Department, the Subordinate Excise Service and the Upper Division of the Secretariat Clerical Service.

General physical requirements.

I. A candidate must be in good mental and bodily health, and free from any physical defect likly to interfere with efficient performance of duty.

II. In the examination of candidates the Medical Board will apply the following table of correlation of age, height and chest girth :—

Age.	Height without shoe.	Chest measurement on full expiration.	Chest measurement on full inspiration.
	Inches. Inches.		
21 and upwards	62½ and under 65	30	32
	65 „ 68	31	33
	68 „ 70	32	34
	70 „ 72	33	35½
	72 and upwards	34	36½

III. Measurement of chest.—The candidate will be made to stand erect with his feet together and to raise his hands above his head. The tape will be carefully adjusted round the chest, with its posterior upper edge touching the inferior angles of the shoulder blades, and its anterior lower edge the upper part of the nipples. The arms will then be lowered to hand loosely by the side, and care will be taken that the shoulders are not thrown upwards or backwards so as to displace the tape. The candidate will then be directed to empty his chest of air as much as is possible. This is best done by continuous whistling with the lips as long as sound can be produced. The tape is carefully gathered in during the process, and when the minimum measurement is reached it is recorded. The candidate will then be directed to inflate his chest to its utmost capacity. The maximum measurement will likewise be noted. The girth with the chest fully expanded and the range of expansion between the minimum and maximum will then be recorded. In all doubtful cases the functional capacity of the lungs may be tested by means of the spirometer. The minimum vital capacity as tested by the spirometer shall in no case be below 180 cubic inches.

IV. The hearing must be good.

V. The speech without impediment.

VI. The teeth in good order, *i.e.*, decayed or broken teeth must be properly stopped or crowned, and deficient teeth replaced by artificial teeth, where necessary, for effective mastication.

VII. The chest must be well formed, the lungs and heart sound.

VIII. Rupture, hydrocele, varicocele, varicose veins in a severe degree, or other condition likely to cause inefficiency will disqualify a candidate, unless such condition is cured by operation. Where any candidate has been rejected and has subsequently undergone one or other operation for hernia, hydrocele, varicocele, or varicose veins, the Board may pass him provided they are satisfied that the condition has been radically cured.

IX. The limbs, feet, and toes must be well formed and developed, with free and perfect motion of all the joints.

X. A candidate must have no congenital malformation or defect likely to interfere with efficiency.

XI. A candidate must not be subject of chronic skin disease.

XII. Evidence of previous acute or chronic disease pointing to an impaired constitution will disqualify.

Standard of minimum acuteness of vision required for appointment in the Provincial Services.

after correction with glasses, and there are no morbid changes present in the choroid or retinæ.

2. Cases of myopia with posterior staphyloma may, however, be admitted, provided ametropia in either eye does not exceed - 2·5 D and no morbid changes are present in the choroid or retinæ.

A candidate of twenty-five years of age or over may be admitted, provided ametropia in either eye or both eyes does not exceed - 3·5 D, and provided his corrected vision reaches $\frac{6}{6}$ in each eye.

3. Candidates with hypermetropia may be admitted provided,—

Better eye	Worse eye
Vision = $\frac{6}{6}$	Vision = $\frac{6}{9}$

after correction with glasses.

4. In cases of defective vision due to nebula of the cornea, the candidate will be rejected.

5. Squints or any morbid conditions subject to risk of aggravation or recurrence in either eye may cause rejection of a candidate.

6. Colour vision need not be taken into account.

Form of medical certificate for candidates for appointment to the Bengal Civil Service (Executive), the Bengal Excise Service, the Subordinate Civil Service, the Income Tax Department, the Subordinate Excise Service and the Upper Division of the Secretariat Clerical Service.

The attention of the Medical Board is specially directed to the following :—

No person will be deemed qualified for admission to the service who shall not satisfy Government that he has no disease, constitutional affection or bodily infirmity, unfitting him or likely to unfit him, for the service. It should be understood that the question of

fitness involves the future as well as the present and that one of the main objects of medical examination is to secure continuous effective service, and in the case of candidates for permanent appointment to prevent early pension. It is at the same time to be noted that the question is one of the likelihood of continuous effective service, and that the rejection of a candidate need not be advised on account of the presence of a defect which in only a small proportion of cases is found to interfere with continuous effective service. Before filling up the form it should be ascertained from the candidate whether he has been previously pronounced unfit for Government service by any duly constituted medical authority in India or elsewhere.

The 8th August 1925.

No. F.-84-25.—In supersession of the orders contained in the Home Department notification No. F.-365-24-Ests., dated the 5th February 1925, and in pursuance of sub-section (*2*) of section 86 of the Government of India Act, the Secretary of State in Council, on the recommendation of the Governor-General in Council, has been pleased to grant to His Excellency Sir John Henry Kerr, K.C.S.I., K.C.I.E., Governor of Assam, leave of absence for urgent reasons of health and of private affairs for a period of four months, with effect from the afternoon of the 11th August 1925.

H. TONKINSON,
Joint Secretary to the Government of India.

The main feature of the proposals was that pensions were to be increased by 50 per cent., of which, however, 20 per cent. only was to be a permanent increase and the remaining 30 per cent. was to be definitely guaranteed up to 31st December 1929, by which time the results of the next valuation should be known.

The surplus was not in itself sufficient to provide for a permanent increase of the full 50 per cent., and in view of the large amount of the temporary increase which was recommended, subscribers and beneficiaries may feel some anxiety as to the prospects of the continuance of this large increase after 1929. It may, therefore, be desirable to indicate the circumstances in which the enhanced rates of pensions may be expected to be maintained.

As stated above, the accrued profits were sufficient to provide for a permanent increase of 20 per cent. and a temporary increase of 30 per cent. in pensions in respect of existing subscribers and beneficiaries. In the case of future subscribers, the permanent increase can be provided by increasing the rates of subscription by 12½ per cent. The position of these subscribers is referred to in more detail in my letter of 21st May. The sums required for the continuance of any increase in excess of 20 per cent. after 31st December 1929 must, therefore, be obtained from time to time out of profits earned and disclosed at the periodical valuations.

The profits which normally accrue to the Scheme in an inter-valuation period arise from :—

(1) interest earnings on the accumulated funds in excess of interest at the rate assumed in the valuation ;

(2) the balance of various items of profit and loss resulting from differences between the actual experience of the scheme in the inter-valuation period and the assumption made in the valuation as to the rates of mortality, marriage, retirement, etc., expected to prevail in the period.

It should be pointed out that, owing to the changes made in the valuation basis, which, as explained in the Valuation Report, has been brought as nearly in accord with the actual experience of the Scheme as is compatible with safety, future profits under heading (2) above will probably be relatively smaller than they have been in the past. Unless, however, the rates of mortality, etc., take a violent and unexpected course adverse to the scheme, the profits accruing from these elements may be expected still to be appreciable.

The principal source of profit, however, lies in the rate of interest. So long as the valuations are made on a 4 per cent. basis and the interest earnings are at 5½ per cent., it is clear that substantial profits will continue to accrue in increasing importance as the balance at the credit of the scheme grows. It would, nevertheless, be improper to make a large permanent addition to the benefits of the scheme on the basis of hypothetical future profits, with the result that any adverse fluctuation would throw the Scheme into deficiency. The correct course is, clearly, to make such permanent addition as can undoubtedly be justified without endangering the solvency of the scheme, and to make further additions to benefits as profits are realised.

On this it may be said that, so long as the rate of interest credited to the scheme remains as high as 5 per cent. (the present rate being 5½ per cent.), it would appear that, in the absence of any unforeseen circumstances, there is no reason to doubt that the results of future valuations will enable the increase of 50 per cent. in benefits to be continued for further periods. After each valuation the question will arise as to whether the permanent increase of 20 per cent. should not be added to with a corresponding diminution in that part of the pension which is granted by way of temporary increases and which is dependent for its continuance upon future profits.

I am, etc.,

ALFRED HENRY,

Under Secretary of State for India.

immediately before, the commencement of the new scheme. Not only would the latter pay a smaller basic contribution for the same pension benefits, but he would in addition receive a rebate on this contribution. He would thus be placed in an exceptionally favourable position compared both with the later entrant and with the older subscribers, to whom the surplus mainly belongs. The proposal for a differential rate of reduction in the various classes appears to be the only way of securing rough equity in a benefit of this nature.

If the current reduction of 12½ per cent. in contributions is continued up to 30th June 1925 to all subscribers, and as from 1st July 1925 the following scheme substituted—

a permanent reduction of 12½ per cent. to subscribers in Classes I and II on the valuation date,

a permanent reduction of 6¼ per cent. to subscribers in Classes III and IV on the valuation date,

(the reduction remaining at 6¼ per cent. when these subscribers reach Classes II and I),

no reduction to subscribers in Class V on the valuation date or to later entrants (who would continue on full rates throughout Classes IV to I) a possible allocation of surplus would be as follows :—

	£
Value of permanent increase of 20 per cent. in pensions as from 1st January 1925	583,022
Value of temporary increase of 30 per cent. in pensions during the five years 1st January 1925 to 31st December 1929	91,320
Value of total reductions in contributions of subscribers in Classes I-IV inclusive, as from 1st April 1923, as described above	68,200
Value of 6¼ per cent. reduction in contributions of subscribers in Classes III and IV between 1st April 1923 and 30th June 1925 (say)	2,000
Value of 12½ per cent. reduction in contributions of subscribers in Class V between 1st April 1923 and 30th June 1925 (say)	1,200
Balance of surplus to be carried forward	3,815
Total surplus ...	749,557

The balance of 3,815*l.* would be insufficient to provide any appreciable reduction in donations, but appart from this the practical equity of any such allowance is a matter for consideration. An existing subscriber marrying after the scheme comes into force would receive a substantial advantage over a subscriber who married immediately before, and the latter would probably feel, not unjustifiably, that he had some ground for dissatisfaction. I feel, therefore, that the request for this reduction should not be granted.

The values of the increases in benefit shown in the above scheme are based on the assumption that the total cost of the increase is to be borne by the Fund.

I have assumed throughout my remarks that for new entrants after 30th June 1925 the tabular rate of subscription will be increased by 12½ per cent., and that they will be entitled to the full increased pension benefits.

Entrants since the valuation date have, of course, been paying the reduced contribution, and so will have given rise to some loss. It would, therefore, seem desirable, if practicable, to charge these subscribers the full revised rate as from 1st July 1925.

I have, etc.,

ALFRED HENRY,

Under Secretary of State for India.

ENCLOSURE No. 2.—*Letter from the Deputy Government Actuary, dated 18th June 1925.*

Treasury Chambers, Whitehall, S.W. 1, 18th June 1925.

Sir,

In my letter of 21st May last I included a statement showing under various heads the estimated cost of a proposed scheme for the distribution of the surplus disclosed by the valuation as at 31st March 1923 of the Indian Civil Service Family Pension Scheme.

7. With regard to the position of future European entrants, I note with satisfaction the general agreement, both on the part of Your Excellency's Government and on that of the various Service Associations, with the view expressed in my Despatch of 28th August last, No. 5, Accounts, that they should be admitted to the present Scheme. I observe, moreover, that it is generally held to be desirable that they should subscribe at enhanced rates for the same benefits as existing members. I have accordingly decided that European entrants into the Service after this date shall subscribe at rates 12½ per cent. in excess of the present tabular rates. The increase will not apply to donations.

It will be seen from the Deputy Government Actuary's letter of 21st May that it was contemplated in the calculations that all entrants since the valuation date, 31st March 1923, would pay the full subscriptions necessary to secure for their dependants the benefits which those of earlier subscribers will receive in virtue of the surplus, that is to say, 12½ per cent. above tabular rates; and he recommends that they should be charged these enhanced rates from the 1st July 1925. I recognise that any concession to this body of individuals will represent an anticipation of future profits, which might otherwise have been used to make permanent some portion of the temporary increase sanctioned above. But, while I regret any action which may have the effect of retarding or preventing the fixation of that increase, I feel that, as no warning was given to these officers that they would be subject to conditions differing from those applicable to their immediate predecessors, it would be harsh to make any distinction now. Their numbers are small, and the financial effect of the concession will not be serious. I have, therefore, decided that they shall be treated in the same manner as subscribers who on the valuation date were in Class V.

8. I concur in the view expressed by the Actuary to the Government of India, and endorsed by Your Excellency's Government, that the provision for future Indian members of the service can most suitably be made in the form of a Provident Fund, to which assistance should be granted from Indian Revenues equivalent, as nearly as can be ascertained, to that granted to European members under the Indian Civil Service Family Pension Regulations. The preparation of a detailed scheme will be taken in hand without delay, and the results forwarded on completion for your observations. Meanwhile, Indian entrants must continue to subscribe under the Indian Civil Service Family Pension Regulations, subject to the special conditions now in force.

9. I request that you will publish this Despatch, with the Actuary's letters of 21st May and 18th June, in the *Gazette of India*, and advise me by telegram of the date of publication. Copies of the amended Regulations will be furnished as soon as possible.

I have the honour to be,

My Lord,

Your Lordship's most obedient humble Servant.

(Signed) BIRKENHEAD.

ENCLOSURE No. 1.—*Letter from the Deputy Government Actuary, dated 21st May 1925.*

Treasury Chambers, Whitehall, S. W. 1, 21st May 1925.

Sir,

Indian Civil Service Family Pension Scheme.

I have to acknowledge receipt of Mr. Turner's letter of 12th instant (A. G.-5598—25) regarding the proposals made for the distribution of the surplus revealed by the valuation of the above Scheme as at 31st March 1923, and to refer to my Report, dated 22nd March 1924.

The position of the new entrant in relation to the scheme adopted for the distribution of surplus among the existing members must be considered with regard to the source of the surplus and to the incidence of the distributed profits. If the distribution takes the form wholly of (*a*) a permanent increase in benefits of 20 per cent., and (*b*) a further temporary increase for five years, the real benefit of (*b*) will fall firstly to the incumbents and then mainly to the families of the older existing members. The new entrant pays for (*a*) in his enhanced contribution, and in the rare case in which (*b*) will actually accrue, the cost may be regarded as being provided out of current profits. The grant of (*b*) to a new entrant is, therefore, an anticipation of future profits, but this is unlikely to impose an undue strain on the finances of the Scheme.

If, however, the distribution also includes (*c*) a uniform reduction in the rate of contributions of all existing members, the incidence of the cost of which is radically different from that of (*b*), a relatively larger proportion of the surplus would be absorbed by the younger existing members, who would receive an immediate benefit. Clearly the contribution of the new entrant, which must be the equivalent of the total permanent benefit, cannot be reduced, and an anomaly would arise between the position of a subscriber who entered immediately after and that of a subscriber who entered

4. In all valuations prior to that made as at 31st March 1918 the rate of interest employed in the calculations was the same as that allowed on the balances, the permanence of which was in effect assumed. In the period immediately succeeding 1918, however, conditions were such that this assumption, perhaps too lightly made on previous occasions, was clearly untenable. The rate allowed on the balances was then 5½ per cent.; but it was clear that so high a rate could not be anticipated throughout the period, possibly upwards of a century, which would elapse before the death of the last dependant of the existing subscribers. It was decided, therefore, to make the valuation at a rate of interest of 4 per cent., that being regarded as the highest figure which could prudently be assumed as likely to be realised, on average, during the period covered by the calculations.

The employment in the valuations of a rate considerably lower than that actually realised involves certain complexities. So long as the higher rate is received a considerable profit will accrue, and successive valuations may be expected, in the absence of any disturbing factor of the opposite tendency, to show a series of surpluses available for distribution in the form of increased pensions or reductions of subscription. These benefits may be declared either on a permanent basis or as temporary measures subject to reconsideration after the next valuation. Either course, pursued to the exclusion of the other, entails certain disadvantages. If the entire surplus is distributed in permanent form the result will be that present benefits will be unduly low, while those of the future will be correspondingly high. If, on the other hand, the entire distribution is made on a temporary basis, very high benefits will be possible in the immediate future, but owing to the increasing number of pensioners the maintenance of the benefits at the initial level would prove impossible, even were there no reduction in the rate of interest.

Excessive benefits which have subsequently to be withdrawn in whole or in part will clearly be productive, in the long run, of less satisfaction than benefits of more moderate amount which can be continued without substantial reduction and; moreover, would favour unduly the existing beneficiaries. Conversely, a system of mounting benefits, though familiar in ordinary life assurance, is unsuited to the circumstances of the Indian Civil Service Family Pension Scheme. The best practicable course, therefore, is to allocate the surplus to permanent and temporary awards in such proportions that the position created is one which, on assumptions as to the future which err, if any direction, on the side of optimism, it may be hoped to maintain in perpetuity; and to devote future surpluses not to varying this position, save under stress of necessity, but do consolidating it by the conversion of temporary into permanent benefits.

5. The scheme proposed by the Central Association has two main defects. It grants benefits the permanence of which cannot reasonably be anticipated; and it is open to criticism on the score of equity, as it emphasises the difference between recent entrants and those who will enter in the near future, and grants to the former (indeed to all subscribers in the lower classes) large benefits which they have not earned. I am unable, therefore, as stated above, to accept the scheme. In view, however, of the evident desire for the retention of some rebate on subscriptions, I have consulted the Government Actuary as to the possibility of a scheme which would permit the continuance of the present rebate to members now subscribing in the higher classes. On his advice I have decided on the following scheme:—

Subscribers in Classes I and II on the Valuation date to receive a permanent rebate of 12½ per cent.

Subscribers in Classes III and IV on the valuation date to receive a permanent rebate of 6¼ per cent.

Subscribers in Class V on the Valuation date to contribute at full tabular rates.

The above rates will take effect from the 1st of the month following the publication of this Despatch.

No reduction to be made in donations.

Annuities to be increased permanently by 20 per cent. and to receive a temporary addition of 30 per cent. of the original rates, both increases to take effect from 1st January last, and the temporary addition to be subject to reconsideration in the light of the next quinquennial valuation report.

The entire increase will be met as from the above date from the balance of the Scheme, and there will be no increase in the donations payable to daughters on marriage, which are provided by Government.

6. Copies are enclosed of letters from the Deputy Government Actuary dealing with the manner in which the cost of these measures can be met from the available surplus and the prospects of renewing the temporary increase. It will be seen from the letter of 18th June that it should be possible to continue the latter for a considerable period, if not in perpetuity, provided that the rate of interest allowed on the balances is maintained at a figure not less than 5 per cent. It must be distinctly understood that no guarantee can be given of the fulfilment of this condition, and that the rate will be reduced, if and when necessary, to accord with the market yield on long-dated Government stocks. Prophecy as to the future course of market conditions is obviously impossible; but in view of the present conditions, and of the fact that interest at the rate of 5½ per cent. has actually been received for more than two years since the valuation date, it seems possible to state without undue rashness that pensioners need feel no apprehension of the sudden and early withdrawal of the temporary increase.

No. F.-37-IV-F.E.—The despatch below from the Secretary of State, No. 4-Accounts, dated the 9th July 1925, and its enclosures, relating to the decisions taken by the Secretary of State in connection with the Valuation of the Indian Civil Service Family Pension Scheme as at 31st March 1923 are published for general information.

Secretary to the Government of India.

India Office, London,
9th July 1925.

Accounts,
No. 4.

To His Excellency the Right Honourable the Governor-General of India in Council.

My Lord,

Indian Civil Service Family Pensions. Decisions regarding Valuation as at 31st March 1923.

I have considered in Council the Despatch from Your Excellency's Government, No. 5 (Financial), dated the 26th March 1925, and your Financial Secretary's letter No. 30, II. F.E., dated 21st April, on the subject of the recommendations of the Lee Commission regarding the Indian Civil Service Family Pension Scheme.

2. I am in agreement with the opinion of Your Excellency's Government that, in view of the opposition of the Provincial Associations, it is undesirable to proceed further with the recommendation for the institution of a Board, and I am prepared, subject to unimportant reservations, to accept the alternative proposed by the Associations as set out in the last paragraph of the letter from the Central Association. I agree, therefore—

(1) that facilities shall be allowed from time to time to an Actuary appointed by the subscribers and approved by myself to examine the position of the Scheme and report thereon to the subscribers ;

(2) that any question regarding the method of distribution of a surplus or important alteration of the rules or conditions of the Scheme shall be referred, before action is taken, to all subscribers (including retired members of the Service), and due weight given to their opinions.

The acceptance of these conditions will not, of course, affect, either in theory or in practice, the power of the Secretary of State in Council to give a final decision on any question that may arise.

3. On the questions now at issue the opinions of subscribers, both active and retired, have for some time been available, and there is therefore nothing to prevent immediate decisions. With regard to the distribution of surplus the views expressed are to some extent conflicting. The weight of opinion among active subscribers appears, however, to be in favour of the scheme proposed by the Central Association, which may be briefly summarised as follows :—

20 per cent. permanent increase in pensions ;
20 per cent. temporary increase in pensions ;
20 per cent. temporary reduction in subscriptions, including donations.

This scheme is opposed to the views expressed by the Retired Association, who would devote to the enhancement of pensions the entire surplus available, and is not universally accepted by active subscribers, some of whom have expressed views similar to those of the Retired Association. Even apart from this opposition, I should have been unable for several reasons to approve the scheme. Before discussing further these reasons and the alternative scheme I propose, it is perhaps desirable to explain the principles on which I consider the distribution of surplus should, in present circumstances, be carried out.

Leave to appeal.

2. **Leave to appeal generally.**—All appeal shall be brought either in pursuance of leave obtained from the Court appealed from, or, in the absence of such leave, in pursuance of special leave to appeal granted by His Majesty in Council upon a petition in that behalf presented by the intending Appellant.

Special leave to appeal.

3. **Form of Petition for special leave to appeal.**—A Petition for special leave to appeal to His Majesty in Council shall state succinctly and clearly all such facts as it may be necessary to state in order to enable the Judicial Committee to advise His Majesty whether such leave ought to be granted, and shall be signed by the Counsel who attends at the hearing or by the party himself if he appears in person. The Petition shall deal with the merits of the case only so far as is necessary for the purpose of explaining and supporting the particular grounds upon which special leave to appeal is sought.

4. **Five copies of Petition to be lodged together with Affidavits in support.**—The petitioner shall lodge at least five copies of his Petition for special leave to appeal together with the Affidavit in support thereof prescribed by Rule 50 hereinafter contained, and, unless a Caveat as prescribed by Rule 48 has been lodged by the other parties who appeared in the Court below, an Affidavit of service of notice of the intended application upon such parties or their Solicitors or Agents, either abroad or in England.

5. **Time for lodging Petition.**—A Petition for special leave to appeal may be lodged at any time after the date of the judgment sought to be appealed from, but the Petitioner shall, in every case, lodge his Petition with the least possible delay.

6. **Security for costs and transmission of Record.**—Where the Judicial Committee agree to advise His Majesty to grant special leave to appeal, they shall, in their Report, specify the amount of the security for costs (if any) to be lodged by the Petitioner, and shall, unless the circumstances of a particular case render such a course unnecessary, provide for the transmission of the Record by the Registrar to the Registrar of the Privy Council and for such further matters as the justice of the case may require. Unless otherwise ordered the security shall be lodged at any time before the Appellant enters an Appearance.

7. **General provisions.**—Save as by the four last preceding Rules otherwise provided, the provisions of Rules 47 to 50 and 52 to 59 (all inclusive) hereinafter contained shall apply *mutatis mutandis* to Petitions for special leave to appeal.

8. **Petitions for special leave to appeal** *in formâ pauperis.*—Rules 3 to 7 (both inclusive) shall apply *matatis mutandis* to Petitions for leave to appeal *in formâ pauperis*, but in addition to the Affidavits referred to in Rule 4 every such Petition shall be accompanied by an Affidavit from the Petitioner stating that he is not worth £25 in the world excepting his wearing apparel and his interest in the subject-matter of the intended Appeal, and that he is unable to provide sureties, and also by a certificate of Counsel that the Petitioner has reasonable ground of appeal.

9. **Exemption of pauper Appellant from lodging security and paying Office fees.**—Where a Petitioner obtains leave to appeal *in formâ pauperis*, he shall not be required to lodge security for the costs of the Respondent or to pay any Council Office fees.

10. **Exemption of unsuccessful Petitioner for leave to appeal** *in formâ pauperis* **from payment of Office fees.**—A Petitioner whose Petition for leave to appeal *in formâ pauperis* is dismissed may, notwithstanding such dismissal, be excused from paying the Council Office fees usually chargeable to a Petitioner in respect of a Petition for leave to appeal, if His Majesty in Council, on the advice of the Judicial Committee, shall think fit so to order.

Record and Appearance by Appellant.

11. **Record to be transmitted without delay.**—As soon as the Appeal has been admitted, whether by an Order of the Court appealed from or by an Order of His Majesty in Council granting special leave to appeal, the Appellant shall without delay take all necessary steps to have the Record transmitted to the Registrar of the Privy Council, and the Registrar shall, with all convenient speed, certify to the Registrar of the Privy Council that the Respondent has received notice, or is otherwise aware, of the order of the Court appealed from admitting the Appeal, or of the Order of His Majesty in Council giving the Appellant special leave to appeal, and has also received notice, or is otherwise aware, of the dispatch of the Record to England. Where an Appellant who has obtained special leave to appeal by an Order of His Majesty in Council fails to have the Record transmitted to the Registrar of the Privy Council with due diligence, the Registrar of the Privy Council shall call upon the Appellant to explain his default, and if no explanation is offered, or if the explanation offered is, in the opinion of the said Registrar insufficient, the said Registrar may issue a Summons to the Appellant calling upon him to show cause before the Judicial Committee at a time to be named in the said Summons why the special leave to appeal granted should not be rescinded. The Respondent shall be entitled to be heard before the Judicial Committee in the matter of the said Summons and to ask for his costs and such other relief as he may be advised. The Judicial Committee may, after considering the matter of the said Summons, recommend to His Majesty to rescind the grant of special leave to appeal or give such other directions therein as the justice of the case may require.

12. **Printing of Record.**—The Record shall be printed in accordance with the Rules contained in Schedule A hereto. It may be printed either abroad or in England. When printed abroad the parties in England shall, upon perusal, consider whether the order of the documents is in accordance with these Rules, and if it is not, they shall agree upon the proper order. The Appellant shall then rearrange copies of the Record for the use of the Judicial Committee and the other parties. In the event of the parties being unable to agree, the matter shall be referred to the Registrar of the Privy Council who, if he thinks fit, may require the parties to attend before the Judicial Committee for directions.

13. **Number of copies to be transmitted, where Record printed abroad.**—Where the Record is printed abroad, the Registrar shall, at the expense of the Appellant, transmit to the Registrar of the Privy Council 40 copies of such Record, one of which copies he shall certify to be correct by signing his name on, or initialling, every eighth page thereof and by affixing thereto the seal, if any, of the Court appealed from.

14. **One certified copy to be transmitted, where Record to be printed in England.**—Where the Record is to be printed in England, the Registrar shall, at the expense of the Appellant, transmit to the Registrar of the Privy Council one certified copy of such Record, together with an index of all the papers and exhibit in the case. No other certified copies of the Record shall be transmitted to the Agents in England by or on behalf of the parties to the Appeal.

15. **Record printed partly abroad, partly in England.**—Where part of the Record is printed abroad and part is to be printed in England, Rules 13 and 14 shall, as far as practicable, apply to such parts as are printed abroad and such as are to be printed in England respectively.

16. **Reasons for judgments to be included.**—The reasons given by the judge, or any of the judges, for or against any judgment pronounced in the course of the proceedings out of which the Appeal arises, shall by such judge or judges be communicated in writing to the Registrar and shall be included in the Record.

17. **Exclusion of unnecessary documents from Record.**—The Registrar, as well as the parties and their Agents, shall endeavour to exclude from the Record all documents (more particularly such as are merely formal) that are not relevant to the subject-matter of the Appeal, and, generally, to reduce the bulk of the Record as far as practicable, taking special care to avoid the duplication of documents and the unnecessary repetition of headings and other merely formal parts of documents; but the documents omitted to be printed or copied shall be enumerated in a typewritten list to be transmitted with the Record.

18. **Documents objected to to be indicated.**—Where in the course of the preparation of a Record one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant, and the other party nevertheless insists upon its being included, the Record, as finally printed (whether abroad or in England), shall, with a view to the subsequent adjustment of the costs of and incidental to such document, indicate, in the index of papers, or otherwise, the fact that, and the party by whom, the inclusion of the document was objected to.

19. **Registration and numbering of Records.**—As soon as the Record is received in the Registry of the Privy Council, it shall be registered in the said Registry, with the date of arrival, the names of the parties, and the description whether "printed" or "written". A Record, or any part of a Record, not printed in accordance with the Rules contained in Schedule A hereto shall be treated as written. Appeals shall be numbered consecutively in each year in the order in which the Records are received in the said Registry.

20. **Inspection of Record by parties.**—The parties shall be entitled to inspect the Record and to extract all necessary particulars therefrom for the purpose of entering an Appearance.

21. **Appearance by Appellant.**—The Appellant shall enter an Appearance before taking any step in the prosecution of the Appeal, and after entering such Appearance, shall forthwith give notice thereof to the Respondent, if the latter has entered an Appearance.

22. **Times within which a copy of a written Record shall be bespoken.**—Where the Record arrives in England either wholly written, or partly written and partly printed, the Appellant shall, within a period of four months from the date of such arrival in the case of Appeals from Courts situate in any of the countries or places named in Schedule B hereto, and within a period of two months from the same date in the case of Appeals from any other Courts, enter an Appearance and bespeak a typewritten copy of the Record, or of such parts thereof as it may be necessary to have copied, and shall engage to pay the cost of preparing such copy at the following rates per folio typed (exclusive of tabular matter)—2*d.* per folio of English matter, 2½*d.* per folio of Indian matter, and 3½*d.* per folio of foreign matter; and shall also engage to pay at such price as shall be fixed by the Registrar of the Privy Council the cost of printing at least 50 copies thereof.

23. **Preparation of copy of Record for printer.**—As soon as the Appellant has obtained the typewritten copy of the Record bespoken by him, he shall proceed, with due diligence, to arrange the documents in suitable order, to check the index, to insert marginal notes and check the same with the index, and, generally, to do whatever may be required for the purpose of preparing the copy for the printer, in accordance with the Rules contained in Schedule A hereto, and shall, if the Respondent has entered an Appearance, submit the copy, as prepared for the printer, to the Respondent for his approval. In the event of the parties being unable to agree, the matter shall be referred to the Registrar of the Privy Council who, if he thinks fit, may require the parties to attend before the Judicial Committee for directions.

24. **Lodging copy of Record for printing.**—As soon as the typewritten copy of the Record is ready for the printer, the Appellant shall lodge it in the Registry of the Privy Council for printing by a printer selected by the Registrar of the Privy Council, and at the same time shall lodge the amount of the estimated cost of printing the Record.

25. **Special Case.**—Whenever it shall be found that the decision of a matter on appeal is likely to turn exclusively on a question of law, the parties, with the sanction of the Registrar of the Privy Council, may submit such question of law to the Judicial Committee in the form of a Special Case, and print such parts only of the Record as may be necessary for the discussion of the same Provided that nothing herein contained shall in any way prevent the Judicial Committee from ordering the full discussion of the whole case, if they shall so think fit, and that, in order to promote such arrangements and simplification of the matter in dispute, the said Registrar may call the parties before him, and having heard them, and examined the Record, may report to the Judicial Committee as to the nature of the proceedings.

26. **Examination of proof of Record and striking off copies.**—The Registrar of the Privy Council shall, as soon as the proof prints of the Record are ready, give notice to all parties who have entered an Appearance requesting them to attend at the Registry of the Privy Council at a time to be named in such notice in order to examine the said proof prints and compare the same with the certified Record, and shall, for that purpose furnish each of the said parties with one proof print. After the examination has been completed, the Appellant shall, without delay, lodge his proof print, duly corrected and (so far as necessary) approved by the respondent, and the Registrar of the Privy Council shall thereupon cause the copies of the Record to be struck off from such proof print.

27. **Number of copies of Record for parties.**—Each party who has entered an Appearance shall be entitled to receive, for his own use, six copies of the Record.

28. **How costs of printing Record are to be borne.**—Subject to any special direction from the Judicial Committee to the contrary the costs of and incidental to the printing of the record shall form part of the costs of the Appeal, but the costs of and incidental to the printing of any document objected to by one party, in accordance with Rule 18, shall if such document is found on the taxation of costs to be unnecessary or irrelevant, be disallowed to, or borne by, the party insisting on including the same in the Record.

Petition of Appeal.

29. **Times within which Petition shall be lodged.**—The Appellant shall lodge his Petition of Appeal—

(*a*) Where the Record arrives in England printed, within a period of four months from the date of such arrival in the case of Appeals from Courts situate in any of the countries or places named in Schedule B hereto, and within a period of two months from the same date in the case of Appeals from any other Courts ;

(*b*) Where the Record arrives in England written, within a period of one month from, but not before, the date of the completion of the printing thereof :

30. **Form of Petition.**—The Petition of Appeal shall be lodged in the form prescribed by Rule 47 hereinafter contained. It shall recite succinctly and, as far as possible in chronological order, the principal steps in the proceedings leading up to the Appeal from the commencement thereof down to the admission of the Appeal, but shall not contain argumentative matter or travel into the merits of the case.

31. **Service of Petition.**—The Appellant shall, after lodging his Petition of Appeal, serve a copy thereof without delay on the Respondent, as soon as the latter has entered an Appearance, and shall endorse such copy with the date of the lodgment.

32. **Withdrawal of Appeal before Petition of Appeal has been lodged.**—Where an Appellant, who has not lodged his Petition of Appeal, desires to withdraw his Appeal, he shall give notice in writing to that effect to the Registrar of the Privy Council, and the said Registrar shall, with all convenient speed after the receipt of such notice by letter notify the Registrar of the Court appealed from that the Appeal has been withdrawn, and the said Appeal shall thereupon stand dismissed as from the date of the said letter without further Order.

33 **Withdrawal of Appeal after Petition of Appeal has been lodged.**—Where an Appellant, who has lodged his Petition of Appeal, desires to withdraw his Appeal, he shall present a Petition to that effect to His Majesty in Council. On the hearing of any such Petition a Respondent who has entered an Appearance in the Appeal shall, subject to any agreement between him and the Appellant to the contrary, be entitled to apply to the Judicial Committee for his costs, but where the Respondent has not entered an Appearance or, having entered an Appearance, consents in writing to the prayer of the Petition, the Petition may, if the Judicial Committee think fit, be disposed of in the same way *mutatis mutandis* as a Consent Petition under the provisions of Rule 56 hereinafter contained.

Non-prosecution of Appeal.

34. **Dismissal of Appeal where Appellant takes no step in prosecution thereof.**—Where an Appellant takes no step in prosecution of his Appeal within a period of four months from the date of the arrival of the Record in England in the case of an Appeal from a Court situate in any of the countries or places named in Schedule B hereto, or within a period of two months from the same date in the case of an Appeal from any other Court, the Registrar of the Privy Council shall, with all convenient speed, by letter notify the Registrar of the Court appealed from that the Appeal has not been prosecuted, and the Appeal shall thereupon stand dismissed for non-prosecution as from the date of the said letter without further Order, and a copy of the said letter shall be sent by the Registrar of the Privy Council to any Respondent who has entered an appearance in the Appeal.

35. **Dismissal of Appeal for non-prosecution after Appellant's Appearance and before lodgment of Petition of Appeal.**—Where an Appellant who has entered an appearance—

(*b*) having bespoken such copy within the periods prescribed by Rule 22, fails thereafter to proceed with due diligence to take all such further steps as may be necessary for the purpose of completing the printing of the said Record; or

(*c*) fails to lodge his Petition of Appeal within the periods respectively prescribed by Rule 29;

the Registrar of the Privy Council shall call upon the Appellant to explain his default, and, if no explanation is offered, or if the explanation offered is, in the opinion of the said Registrar, insufficient, the said Registrar shall, with all convenient speed, by letter notify the Registrar of the Court appealed from that the Appeal has not been effectually prosecuted, and the Appeal shall thereupon stand dismissed for non-prosecution as from the date of the said letter without further Order, and a copy of the said letter shall be sent by the Registrar of the Privy Council to all the parties who have entered an appearance in the Appeal.

36. **Dismissal of Appeal for non-prosecution after lodgment of Petition of Appeal.**—Where an Appellant, who has lodged his Petition of Appeal, fails thereafter to prosecute his Appeal with due diligence, the Registrar of the Privy Council shall call upon him to explain his default, and if no explanation is offered, or if the explanation offered is, in the opinion of the said Registrar, insufficient, the said Registrar shall issue a Summons to the Appellant calling upon him to show cause before the Judicial Committee at a time to be named in the said Summons why the Appeal should not be dismissed for non-prosecution Provided that no such Summons shall be issued by the said Registrar before the expiration of one year from the date of the arrival of the Record in England. If the Respondent has entered an appearance in the Appeal, the Registrar of the Privy Council shall send him a copy of the said Summons, and the Respondent shall be entitled to be heard before the Judicial Committee in the matter of the said Summons at the time named and to ask for his costs and such other relief as he may be advised. 53. **Setting down Petition.**—As soon as a Petition and all necessary documents are lodged the Petition shall thereupon be deemed to be set down.

54. **Times within which set-down Petitions shall be heard.**—On each day appointed by the Judicial Committee for the hearing of Petitions the Registrar of the Privy Council shall, unless the Committee otherwise direct, put in the paper for hearing all such Petitions as have been set down. Provided that, in the absence of special circumstances of urgency to be shown to the satisfaction of the said Registrar, no Petition, if opposed, shall be put in the paper for hearing before the expiration of ten clear days from the lodging thereof, unless the opponent consents to the Petition being put in the paper on an earlier day.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The second quinquennial valuation of the fund has been completed by the Actuary to the Government of India and his report discloses very favourable results. For forms of application and rules of the Fund apply to the Accountant-General Central Revenues, Imperial Secretariat Buildings, Calcutta.

STATEMENT OF OBJECTS AND REASONS.

The question of the control and management of Hindu Religious Public Trusts and other Hindu Charitable Public Trusts has been exercising the minds of the Indians for a large number of years. Some years ago Dr. Rash Behari Ghose (as he then was) and after him Mr. Bhupendra Nath Bose introduced Bills in the Indian Legislative Assembly for the purpose. Subsequently the Muhammadan Waqf Act was passed by the Indian Legislative Assembly. Dr. Gour has also introduced a Bill in that body almost on the same lines as the Muhammadan Waqf Act, but that Bill only contains provision for the submitting of accounts and other information by the Trustees, etc.

The Madras Legislative Council passed an Act dealing with the proper management of temples, *maths* and other trusts, and that Act has had a chequered career by reason of His Excellency the Viceroy having withheld assent.

In Bengal also there is a strong feeling that some legislation should be introduced to make provision for the control and management of such trusts as aforesaid in accordance with the wishes of the persons for whose benefit such trusts exist, for safeguarding the objects for which such trusts are created and for preventing the misuse and securing the proper use of such trust funds and the income thereof. It is thought that in connection with many trusts the trustees and Shebaiths in a large number of cases misuse the funds for their own enjoyment or enrichment instead of applying the same to their proper purposes. In the case of some big temples there is a general complaint that the Shebaiths extort money even from the poor pilgrims which they have no right to do.

The law that prevails at present is found to be unsuitable for redress of grievances in several ways. The plaintiffs have to set forth all the grievances which it is often very difficult to do in view of the fact that there is no machinery by which the would-be plaintiff is entitled to make the necessary investigations. The Court has to look into the customs attaching to any trust and the present law does not enable the Court to give any directions contrary to custom, though having regard to the change of times, circumstances and feelings of the people a change in the custom itself is necessary. There is a great difficulty as regards the proper application of Surplus Income. The procedure is very dilatory, embarrassing and expensive and consequently it is too much for a member of the public to set in motion.

The Bill as drawn up provides for a simple procedure. It provides for a Board of Commissioners consisting of 10 members of whom eight would be elected and two nominated. Any 10 persons for whose benefit a public trust exists can present a petition of complaint to the Board of Commissioners. On receiving the petition the Board may appoint a Committee of Inquiry. On receiving the report of the Committee and after considering the views of the persons likely to be affected thereby the Board would advise the Local Government to issue orders in accordance with the directions recommended by the Board. Clause 16 of the Bill provides for the application of Surplus Funds.

Clause 22 exempts from the application of the Act any trust which is created or established by an individual or a single family or a single firm out of funds belonging to him or it or for the benefit of specified persons or relations only unless the trust has become a public trust.

The Bill is confined to Hindu Public Trusts only. It is sought to be introduced as the first step in the direction of a proper control and management of public trusts. After experience is gained in the administration of the Act and after a full inquiry is made of the various trusts that exists in the province it may be found to be feasible to have a more detailed law on the subject.

>

Jurisdiction of the Controller and the President of the Tribunal in certain cases.

Ben. Act I of 1924.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to rectify some anomalies of the Calcutta Rent Act, 1920, and to remove some ambiguities in its wording which have led the President of the Tribunal and the High Court to interpret some of the sections in a way that has to a great extent been prejudicial to the objects of the Act itself.

At the time of the introduction of the Calcutta Rent (Amendment) Bill of 1924 in the January session of the Bengal Legislative Council by which the operation of the Act in respect of premises the rent of which did not exceed Rs. 250 in November 1918 was extended till the end of March 1927, the mover undertook to bring in a Bill later on to remove the defects of the Act. The principal amendments have been necessitated by the following circumstances :—

(*a*) The President of the Tribunal held that when part of a building is separately let for the first time it is a case of " first letting " within the meaning of section 2 (*f*) (*ii*). This has, however, been held by the High Court to be wrong in the case Roberro *vs.* Jacob reported in 27 C.W.N., p. 569.

(*b*) In the case of Wells *vs.* Dickinson reported in 28 C.W.N., p. 774, Mr. Justice Buckland held that when a house is let furnished the Controller or the Court cannot interfere with the amount which the parties fixed as rent because it includes the hire of furniture which is not rent payable for the premises as defined in section 2 (*c*).

(*c*) Again in the case of Bhulchand *vs.* Grace reported in 26 C.W.N., p. 678, Mr. Justice Buckland held that a tenant who had once made default in paying his rent was for ever deprived of the benefits of the Act by reason of section 11 (*5*) although the rent had been subsequently paid and the landlord had accepted it.

(*d*) In many cases landlords have abused the provisions of the proviso to section 11 (*1*) and obtained decrees for ejectment on the pretext of requiring premises for their own occupation or for rebuilding. In the case of R. M. Chatterjee *vs.* D. O. C. Ryan the High Court has held that the Court cannot question the landlord's *bona fides* if he simply produces an Engineer's certificate that the house requires to be rebuilt.

These interpretations of the various sections have enabled middlemen, profiteers and unscrupulous landlords to evade the provisions of the Act.

Doubts have also arisen as to the jurisdiction of the Controller and the President of the Tribunal in respect of premises which have been excluded from the operation of the Act by the Calcutta Rent (Amendment) Act, 1924 (Bengal Act, I of 1924).

The present Bill aims at removing these defects and anomalies.

Rules.

40. (*1*) The Local Government may make rules to carry out the purposes of this Act.

(*2*) In particular and without prejudice to the generality of the foregoing power such rules may prescribe—

(*1*) the form of keeping accounts;

(*2*) the form of receipts to be granted to payees; and

(*3*) the form in which the extent, situation and boundaries, etc., of pasture lands are to be kept.

STATEMENT OF OBJECTS AND REASONS.

The Bill intends to secure the right of pasturage in lands formerly used as such but since encroached for cultivation or otherwise. The need for such a measure will be apparent on reading cattle census reports and settlement reports of various provinces which complain of the serious want of pasturage and encroachment of land for cultivation. Similarly one of the causes ascribed for the deterioration of cattle of this country has been the gross inadequacy of pasture land which is also considered to be a circumstance adverse to cattle breeding. The grazing that exist in this country now are very poor both in quality and in quantity. The proportion of grazing lands to the total land area of India is the minimum of all the countries being 1 : 27, whereas the proportion in Japan is 1 : 6, in Germany 1 : 6, in New Zealand 1 : 3. The great shortage of pasture land will also be apparent from a comparison of the number of acres that is available for grazing per head of cattle in different countries. It is only ·17 in Bengal and a little more in other provinces in India, 1·6 in the United States of America, 1·35 in New Zealand and 1·44 in Germany.

STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to develop further the system of Local Self-Government in Bengal and to secure this end the local authorities should be invested with more and more powers and responsibilities for the management of their own affairs. Such steps are suggested in the Bill as will lead to the progressive realisation of Local Self-Government in the areas administered by the local authorities created by the Local Self-Government Act of 1885.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

No. 1928L., dated Calcutta, the 18th August, 1925.—The following Bill was introduced in the Bengal Legislative Council on the 17th August, 1925, and is hereby published for general information, together with Statement of Objects and Reasons annexed thereto :—

THE BENGAL VILLAGE SELF-GOVERNMENT (AMENDMENT) BILL, 1925.

A

BILL

to amend the Bengal Village Self-Government Act, 1919.

Preamble.

WHEREAS it is expedient to amend the Bengal Village Self-Government Act, 1919, in the manner hereinafter appearing;

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Bengal Village Self-Government (Amendment) Act, 1925.

New section substituted for section 20 of Bengal Act V of 1919.

2. For section 20 of the Bengal Village Self-Government Act, 1919 (hereinafter referred to as the said Act), the following shall be substituted, namely:— Ben. Act V of 1919.

"20. (*1*) The union board shall appoint a person to be a dafadar or a chaukidar subject to the approval of the District Magistrate.

Appointment and dismissal of dafadars and chaukidars.

(*2*) The union board may dismiss any dafadar or chaukidar subject to the approval of the District Magistrate.

(*3*) Notwithstanding anything contained in sub-section (*1*) any dafadar or chaukidar already employed in any of the existing union boards and appointed before the date on which the Bengal Village Self-Government (Amendment) Act, 1925, comes into operation, shall be considered to be duly appointed under this Act."

New section substituted for section 21 (*1*) of Bengal Act V of 1919.

3. For sub-section (*1*) of section 21 of the said Act the following shall be substituted, namely:—

"21. (*1*) The number of dafadars and chaukidars to be employed in a union, the salary to be paid to them and the nature and cost of the equipment shall be determined by the union board subject to the approval of the district magistrate.

Notwithstanding anything contained in this sub-section, the number of dafadars and chaukidars employed in a union, the salary to be paid to them and the cost of their equipment shall continue to be the same as on the day on which the Bengal Village Self-Government (Amendment) Act, 1925, comes into operation until altered under the provisions of this sub-section."

STATEMENT OF OBJECTS AND REASONS.

Section 12 of the Village Chaukidari Act of 1870 dealing with the authority to determine the salaries of chaukidars has been amended by the Bengal Legislative Council in its August session of 1922. Section 11 of the same Act dealing with the authority to determine the number of chaukidars has also been amended by the Legislative Council in the July session of 1923. With a view, therefore, to bring the Bengal Village Self-Government Act of 1919 into a line with the amended Village Chaukidari Act—which Act again the Act of 1919 seeks to replace—it is proposed by clause 3 of this Bill to amend section 21 of Bengal Act V of 1919. The limited powers of appointment and dismissal of chaukidars proposed to be conferred on the union board by clause 2 of this amending Bill are no new powers but are much the same as those that were conceded to the panchayets by section 35 of the Act of 1870. The power of appointing chaukidars was taken away from the panchayets by section 11 of the amending Bengal Act I of 1892 and section 20 of the Bengal Village Self-Government Act of 1919, modelled as it is on that section of the aforesaid amending Act, only goes further to deprive the village authorities of such powers. Clause 2 of the Bill therefore proposes to revive to some extent the powers of the village authorities as they existed under the Act of 1870.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for July 1925.

I. **Character of the season.**—The rainfall during the month was markedly in defect of the average. The precipitation was, however, above the normal in the districts of the 24-Parganas, Nadia, Murshidabad, Bankura, Midnapore, Howrah, Malda, Bakarganj, Chittagong and Noakhali. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Transplantation of winter paddy seedlings is proceeding slowly, especially in the West Bengal districts and parts of Mymensingh, for want of sufficient rain. The progress of the operation so far made is behind that of last year. The cutting, steeping and retting of jute continued, although difficulty was felt for retting in parts of Mymensingh, for want of sufficient water. Harvesting of autumn paddy continued in full swing.

III. **State of standing crops.**—The condition of standing crops was generally fair. Want of sufficient rain was generally felt throughout the Province, especially in the West Bengal districts.

IV. **Prospects and probable outturn.**—Owing to the fact that late transplantation means a lighter crop, the matter is now beginning to assume a serious aspect, especially in West Bengal, Mymensingh and Malda. The prospects of sugarcane and other standing crops are fair.

V. **Damage to standing crops.**—Some damage was done to the standing crops by insect pests in parts of the 24-Parganas, Nadia, Murshidabad, Jessore, Rajshahi and Faridpur.

VI. **Condition of agricultural stock.**—The condition of livestock was generally fair. Stray cases of cattle disease were reported from several districts.

VII. **Failure of pasturage and fodder.**—No scarcity of fodder and water was reported from any part of the Province.

VIII. **Prices of food-grains.**—During the second fortnight of the month the price of common rice of the cheapest quality fell in 7 districts, rose in 6, and remained stationary in the rest of the Province.

IX. **Condition of agricultural population.**—The condition of agricultural population was fair.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 19th August 1925.

Summary.—Excepting in parts of Chittagong and Rajshahi Divisions the rainfall was generally light throughout the Presidency. More rain is urgently needed for transplantation of winter paddy in the West Bengal districts and in parts of Mymensingh. Elsewhere the operation is normally active. The outlook, so far, is not very promising in the highland tracts. Harvesting of jute is in full swing, but lack of water is being felt in the highland tracts for retting. The average price of common rice for the province has risen by about 0·44 per cent. as compared with that of the previous week.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 26th August 1925.

Summary.—During the week the rainfall was generally light. More rain is needed for the growth of crops on highland and for the transplantation of winter paddy seedlings which is proceeding slowly. Harvesting of jute continues in full swing, and that of autumn paddy is well advanced. The standing crops are generally doing well except on highland where the condition is not satisfactory. The average price of common rice for the province has slightly fallen as compared with that of the previous week.

RESOLUTION ON THE REPORT OF THE DIRECTOR OF PUBLIC HEALTH, THE SANITARY BOARD AND THE CHIEF ENGINEER, PUBLIC HEALTH DEPARTMENT, FOR THE YEAR 1923.

GOVERNMENT OF BENGAL.

LOCAL SELF-GOVERNMENT DEPARTMENT.

Public Health.

DARJEELING, THE 5TH SEPTEMBER 1925.

RESOLUTION—No 413 T.—P.H.

READ—

The Report of the Director of Public Health, the Sanitary Board and the Chief Engineer, Public Health Department, for the year 1923.

READ ALSO—

The annual statistical returns and short notes on vaccination in Bengal for the year 1923-24.

1. **Public Health** (Statistical, Epidemiological and General Public Health Administration)—

Population.—For the purposes of this review, the total population of Bengal, excluding the Chittagong Hill Tracts, is taken as 46,522,293 (1921 census).

2. **Birth-rate and death-rate.**—In 1923 the number of recorded deaths in Bengal was 1,185,791 against 1,393,411 births. The provincial birth-rate in the year under review was 29·9 per mille as compared with the quinquennial average of 28·7. The North-West Frontier Province, Assam and Burma returned lower birth-rates than Bengal.

The Bengal death-rate was 25·5 per mille. Six provinces returned lower death-rates than Bengal. The low mortality is, as the Director of Public Health remarks, undoubtedly attributable mainly to the good harvests of the two seasons 1921-22 and 1922-23, but the percentage is also influenced by the relatively few births that have occurred since the year 1918. The Director of Public Health points out that it is the rate of natural increase in births which affords the best evidence of country's health. Judged by this standard Bengal stands ninth among the ten provinces in India.

It is satisfactory to note that in rural areas the reporting of vital occurrences by the village chaukidar has greatly improved, and as the influence of the health departments under district boards increases, a gradual reduction in the proportion of omissions in the records may confidently be expected. But the Director of Public Health points out that all attempts to bring about an improvement in the records of towns have up to the present failed, and excluding Calcutta and a few other places in which registration of vital occurrences is exceptionally good, the recording of births and deaths in municipal areas has been increasingly defective. He is of opinion that no improvement can be expected until the Registration of Births and Deaths Act is enforced in municipalities. The Governor in Council agrees with this view and invites municipalities to give their most serious consideration to this important matter.

As regards birth registration in towns the Director of Public Health remarks as follows :—

In view of the importance of the question, it is to be hoped that one effect of the Baby Week movement will be to direct attention to the need for improving the registration of births in municipal areas generally. Perhaps the efforts of educated women, both Indian and European, may be able to do more in this direction than other attempts have yet been able to accomplish.

Infant mortality.—In 1923, 253,694 infants died under the age of one year, as against 239,451 during the preceding year, the total mortality showing a net increase of 5·9 per cent. Comparing the age mortality rates of the year 1923 with the mean rates for the previous ten years, the year under review is however a particularly healthy year.

Deaths from child birth were reported to be 1,185 in 1923 as against 2,567 in 1922. The Director of Public Health is, however, of opinion that very little reliance can be placed upon these figures. In this connection the Director of Public Health remarks :—

The obviously incomplete nature of the returns that are at present being received in respect to deaths from child birth points to the need for directing more attention to maternal and infant welfare, and it is to be hoped that the inauguration of a Baby Week throughout the province will have the effect of arousing public interest in this important question.

Hitherto the efforts of Government to establish classes for the training of the indigenous *dai* have not been very successful, but local bodies are beginning to show more interest in this scheme.

It is gratifying to note that some district boards and municipalities have already started classes for the training of *dais*. The Governor in Council hopes that this movement will gain a firm footing and result in bringing immense blessings both to the Indian mothers and their babies.

Cholera.—There were 41,483 deaths from cholera in 1923 as against 51,712 in 1922, the mortality rate in these two years from this disease being ·9 and 1·1 per mille, respectively. The Director of Public Health remarks that—

Cholera was specially prevalent during the periods 1891 to 1897 and 1905 to 1908, when in both cases the rainfall trend was down, and that on the contrary the disease declined very markedly when the rainfall trend was elevated.

Many district boards have taken effective measures to cope with cholera epidemics by employing additional temporary staff, and the Governor in Council appreciates the admirable work which such voluntary agencies as the Bengal Health Association and the Cholera Brigade of the Central Anti-malaria Co-operative Society have done in connection with cholera prevention.

Small-pox.—In 1923 the mortality from small-pox was 4,236 as against 36,190 in 1920, 8,257 in 1921 and 7,864 in 1922 and the death-rate ·1 per mille lower than it has been for the past 23 years. In 1923 nearly 62 per cent. of the small-pox deaths occurred in the four districts of Mymensingh, Dacca, Jalpaiguri and Chittagong. The average figures of mortality of the previous ten years show that nearly two-thirds of the small-pox deaths in Bengal are usually confined to Calcutta and the following eight districts, viz., Mymensingh, 24-Parganas, Midnapore, Dinajpur, Dacca, Rangpur, Pabna, and Howrah. The Director of Public Health has urged that the attention of the local authorities of the city of Calcutta and these eight districts should be drawn to the necessity for improving the condition of their population in respect to vaccination with a view to protecting not only themselves but the whole population of India. Small-pox tends to recur every five years or so in epidemic form. In this connection the Director of Public Health remarks as follows :—

While it is a matter of very great satisfaction to be able to report an exceedingly low incidence of small-pox during the year under report, it is impossible with the information at present available to state with any certainty whether this low incidence is to

be interpreted as evidence of a definite decline in small-pox prevalence or whether it is the prelude to a specially severe recrudescence on the return of the usual periodic epidemic.

The Khulna District Board is to be congratulated on its very satisfactory small-pox statistics; Khulna vaccinators are reputed to be the best operators in the province, while the public health of this district is particularly good.

The total number of vaccinations reported in the Presidency in 1923-24 was 2,057,724 against 2,006,140 during 1922-23. These figures represent an increase of 64,191 in primary vaccinations, and a decrease of 12,607 in re-vaccinations.

Out of 1,355,980 infants requiring vaccination, only 278,286 or 205·2 per mille were reported to have been successfully vaccinated in the rural areas, as compared with 290,172 or 290·4 per mille of 998,829 infants in the previous year, the proportion of successful vaccination in the case of children under one year of age being 251·2 per mille as against 268·1 per mille in the year 1922-23. The protection afforded was obviously most inadequate. The chief cause of the decline in the number of successful vaccination of infants was the fact that people are generally averse from having their children vaccinated until they are several years old.

An additional grant of Rs. 25,000 was provided in the budget for 1924-25 for the suppression of outbreaks of small-pox epidemics.

Fever.—The mortality in 1923 was 909,795, giving a ratio of 19·5 per mille against the quinquennial average of 24·4. As usual deaths from fever represented about 75 per cent. of the total mortality. Though the mortality from malaria decreased from 540,463 in 1922 to 539,899 in 1923, deaths from enteric, relapsing fever, measles, kala-azar and other fevers increased, the increase being greatest under kala-azar. In respect of fever mortality, there was great improvement in the Presidency and Burdwan Divisions in comparison with other divisions where changes were small. In this connection the Director of Public Health remarks as follows :—

This increase of malaria in Eastern Bengal districts appears to be associated with certain changes that have occurred in these areas in recent years. There has been a great increase of the water-hyacinth, there been a considerable multiplication of village roads, and in certain areas, notably Mymensingh, there has been considerable railway extension. The increase of water-hyacinth is an indication of a greatly lessened flow of water in the *bils* and water courses and over the surface of the country. This is exactly what might be anticipated as a result of the multiplication of village roads which in deltaic areas are usually like the form of embanked footpaths, raised considerably above the surface of the country. In existing circumstances, the multiplication of village roads in Eastern Bengal districts is likely to be followed by certain consequences of which an extension of water-hyacinth is one and an increase of malaria another. It is said that people can only learn by their own personal experience and rarely gain wisdom from the experience of others. If this is so the people of Eastern Bengal cannot be expected to appreciate the immense risks they incur by interference with the flow of flood water across the surface of the country.

The results obtained from experiments carried on in the colliery area (Singaran-Toposi) and at Meenglas in the Duars with a view to reducing malaria proved successful. The Banka Valley scheme continued to give good results and effected a reduction of the spleen index. A "flood and flush" scheme was carried out at Jangipur, and the results so far obtained go to show that the flushing of malarious areas not only improves the general health but warrants the assumption that flood irrigation is one of the best methods yet devised of dealing with malaria in deltaic areas.

Kala-azar.—The number of reported deaths from kala-azar was 4,565 in 1923 against 1,531 in 1922 and 1,552 in 1921. Kala-azar cases treated at hospitals, dispensaries and special centres were 51,740 in 1923 against 7,689 in 1921 and 13,317 in 1922. It is satisfactory to note that district boards started 125 special centres for the treatment of kala-azar, and that in addition to these centres the Central Co-operative Anti-malaria Society and the Bengal Health Association opened numerous centres where gratuitous treatment is afforded to kala-azar patients. In 1924-25, Government sanctioned the payment of Rs. 30,000 to district boards and of Rs. 5,000 each to the Bengal

Central Anti-Malaria Co-operative Society and to the Bengal Health Association for anti-kala-azar work. Admirable work has been done at the special centres to which a very large number of kala-azar patients resort. The Governor in Council is convinced that efficient medical relief can be provided at a comparatively small cost by assisting local bodies and voluntary agency with small grants from provincial revenues.

Sanitary Engineering.—Sixteen water-supply and sewerage and drainage projects were prepared and three detailed projects of municipal water-supply drawn up by the Chief Engineer, Public Health Department, in 1923. Fifteen water-supply, drainage and sewerage projects were under construction in 1923. Two water-supply projects were completed, one sewerage and one water-supply scheme were almost completed and one water-supply scheme was abandoned during the year under review. The total capital expenditure on water-supply in 1923 was Rs. 5,83,426. The total expenditure on municipal drainage and sewerage works was Rs. 5,32,644. The report of the Committee appointed to enquire into the water-supply of the west bank of the Hooghly was received. The Committee came to the conclusion that the only type of scheme suitable for the municipalities in the riparian area which had no public water-supply was a tube well supply of a limited quantity. Copies of the report were forwarded to the municipalities concerned.

Personal.—The Member in charge of the Local Self-Government Department desires to record his appreciation of Dr. Bentley's valuable work as Director of Public Health and Mr. G. B. Williams' efficient administration of the Engineering Branch of the Department. Dr. Bentley's enthusiasm and his unremitting study of the public health problems of Bengal have had a great influence on the local bodies of the Presidency, and their genuine concern and desire for the improvement of the public health must be largely attributed to his labours.

The scope of the Engineering Branch has been greatly restricted by the meagre resources of local bodies ; it is often years before a municipality can complete its financial arrangements for a water-supply scheme, but there are nevertheless few municipalities which do not give such a scheme priority over all other capital expenditure and the number of towns possessing a pure supply increases each year. The Member in charge of the Department desires also to acknowledge the valuable work of Mr. K. P. Roy, the Publicity Officer, who, with most inadequate means, has done a great deal to instil into the public some knowledge of the elementary principles of public and private hygiene.

The thanks of Government are due also to the Sanitary Board, whose advice on questions of policy has often been of great value.

Rai Bahadur Gopal Chandra Chatterjee, M.B., Honorary Secretary of the Central Co-operative Anti-malaria Society, the Bengal Health Association and the Bengal Social Service League have done splendid work in harnessing voluntary effort to the cause of public health. It is not easy to keep alive philanthropic movements of this kind, but these societies have done much to organise the large number of people who are anxious to assist in the great task of eradicating or abating disease in Bengal.

It is only when voluntary effort of this kind is fully utilised that any striking and permanent improvement of the public health will be attained.

By order of the Governor in Council,

S. W. GOODE,

Secretary to the Government of Bengal.

RESOLUTION ON THE DEVELOPMENT AND CONTROL OF SEAMEN'S WELFARE WORK IN CALCUTTA.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

Marine.

CALCUTTA, THE 8TH SEPTEMBER 1925.

RESOLUTION—No. 3499 Marine.

The Government of Bengal have recently had under consideration proposals for the further development and control of seamen's welfare work in Calcutta, including a proposal that the present Sailors' Home in Strand Road should be abandoned and a new institution better suited to cope with the modern needs of seamen and officers be built in the neighbourhood of the new Docks now undergoing construction. The whole subject of seamen's welfare work in Calcutta has been carefully reviewed in consultation with the Government of India; and it has been decided, with the sanction of that Government, that the proposal to replace the present Sailors' Home by a new institution in the new Docks area should be approved, and that a permanent Committee should be set up whose functions will be (*a*) to bring into being and to manage this new institution, and (*b*) to assist the development of other forms of seamen's welfare work in Calcutta that already exist or may become desirable. The Governor in Council is accordingly pleased to appoint the following Committee under the title of the Committee for seamen's welfare :—

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Department.

[AS INTRODUCED IN THE LEGISLATIVE ASSEMBLY.]

A Bill further to amend the Legal Practitioners Act, 1879.

WHEREAS it is expedient further to amend the Legal Practitioners Act, 1879, for the purposes hereinafter appearing; It is hereby enacted as follows :— XVIII of 1879.

Short title.

1. This Act may be called the Legal Practitioners (Amendment) Act, 192 .

Amendment of section 3, Act XVIII of 1879.

2. For the definition of "tout" in section 3 of the Legal Practitioners Act, 1879 (hereinafter referred to as the said Act), the following definition shall be substituted, namely :— XVIII of 1879.

"'tout' means a person—

(*a*) who procures the employment in any legal business of any legal practitioner, in consideration of any remuneration moving from such practitioner or from any person interested in such business; or who proposes to procure the employment in any legal business of any legal practitioner to such legal practitioner or to any person interested in such business, in consideration of any remuneration moving from either of them; or

(*b*) who habitually frequents the precincts of Civil or Criminal Courts or revenue-offices or railway stations, landing stages, lodging places, or other places of public resort for the purposes of such procurement."

Amendment of section 36, Act XVIII of 1879.

3. In section 36 of the said Act,—

(*a*) in sub-section (*1*) after the word "satisfaction" the words "or to the satisfaction of any subordinate Court as provided in sub-section (*2A*)" shall be inserted;

(*b*) to sub-section (*1*) the following *Explanation* shall be added, namely :—

"*Explanation.*—Evidence of general repute includes a resolution passed by a majority of not less than two-thirds of the members of an association of persons entitled to

practise as legal practitioners in any Court or revenue-office, declaring that any person is or is not a tout";

(*c*) after sub-section (*2*) the following sub-section shall be inserted, namely:—

"(*2A*) A Court, Judge, Magistrate or officer empowered under sub-section (*1*) to frame and publish a list of touts may send to any Court subordinate to such authority a list of persons alleged or suspected to be touts; the subordinate Court shall thereupon hold an inquiry into the conduct of the persons mentioned in such list, and shall report whether any such person has been proved to its satisfaction to be a tout, to the authority by which the list was sent; and that authority, where any such person is proved to the satisfaction of the subordinate Court to be a tout, shall include the name of such person in the list of touts framed and published by that authority."

(*d*) after sub-section (*5*) the following sub-section shall be inserted, namely:—

"(*6*) Any person whose name is included in any such list who acts as a tout shall be punished with imprisonment which may extend to six months, or with fine which may extend to five hundred rupees, or with both."

STATEMENT OF OBJECTS AND REASONS.

In their report the Bar Committee made the following observations in regard to touting:—

"We feel that our report would not be complete without some reference to an evil which was brought prominently to our notice in the course of our enquiry. The evidence which we have received leaves no doubt that touting of various kinds prevails in most parts of India. The law with reference to touting was strengthened in 1896, but has proved entirely ineffective. The plain fact is that unless the legal profession assists the courts to suppress touts little can be done by way of legislation."

The Civil Justice Committee also referred to the fact that the employment of touts is the evident and immediate cause of many false claims and defences and of much waste of time in courts.

The question of amending the law so as to permit of the effective suppression of touting was considered at length by the Government of India in consultation with the local Governments and with judicial authorities immediately before the war, and it was only because of the war that legislation was not then undertaken. The Government of India consider that in view of the observations of the two Committees referred to above, in regard to the inefficiency of the present law and the evils attendant upon touting, legislation on the matter should no longer be delayed. The Civil Justice Committee have made definite recommendations for the amendment of the law and these have been considered with the conclusions which had been arrived at by the Government of India in 1913 to 1915. The result of that consideration is embodied in the present Bill. Briefly it is proposed to amend the law in the four following respects:—

(*i*) to extend the definition of a tout in section 3 of the Legal Practitioners Act, 1879, so as to include firstly, persons whose remuneration comes from any person interested in any legal business as well as persons whose remuneration comes from the legal practitioner himself and secondly, persons who habitually frequent places of public resort for the purpose of procuring the employment in any legal business of any legal practitioner;

(*ii*) to permit the receipt of a resolution passed by a majority of not less than two-thirds of the members of a Bar Association as evidence of general repute;

(*iii*) to enable the courts and authorities who may now frame and publish lists of touts to cause enquiries to be held by a subordinate court, which enquiries, if the subordinate court concludes that the persons in question have been proved to be touts, will lead to their inclusion in the list of touts framed and published under section 36 of the Legal Practitioners Act; and

(*iv*) to penalize any person whose name has been included in a list of touts who continues to act as a tout.

In regard to the last point it will be observed that under section 36 of the Legal Practitioners Act the authorities are only empowered to exclude from the precincts of the court persons named in the list of touts. With the extension of the definition of a tout to persons who frequent places of public resort other than civil or criminal courts or revenue offices penal provision is required as was in fact recommended by the Civil Justice Committee.

STATEMENT OF OBJECTS AND REASONS.

The inadequacy of the provisions of the Provincial Insolvency Act to meet the requirements of the town of Karachi has been brought to the notice of the Government of India from time to time since 1909 when the Presidency-towns Insolvency Act was passed. The question was, for example, raised in connection with the revision of the Provincial Insolvency Act in 1920. Hitherto the Government of India have adopted the view that the machinery of the Presidency-towns Insolvency Act, 1909, is not suitable for a Court of less status than a Chief Court, and further that the changes introduced in the Provincial Insolvency Law by Act V of 1920 were probably sufficiently adequate to preclude the necessity of the extension of the Presidency-towns Insolvency Act to Karachi. The Civil Justice Committee have considered the matter further and have strongly recommended that the Presidency-towns Insolvency Act should be applied to Karachi with as little delay as possible. The question of raising the status of the Court of the Judicial Commissioner of Sind to a Chief Court is also under the consideration of the Government of Bombay. The present Bill proposes to give effect to this recommendation and also to two other recommendations made by the Civil Justice Committee namely:—

(*i*) that provisions on the lines of sub-section (*5*) of section 70 of the Provincial Insolvency Act, 1920, should be inserted in section 104 of the Presidency-towns Insolvency Act, 1909, so as to enable the Insolvency Court instead of proceeding itself to try the case to make a complaint to the nearest first class Magistrate having jurisdiction; and

(*ii*) that the existing procedure in section 104 of the Presidency-towns Insolvency Act and in section 70 of the Provincial Insolvency Act by which before a Court proceeds to try an insolvent or debtor for certain offences against the insolvency law, it is required to serve a notice or summons on the insolvent or debtor to show cause why a charge or charges should not be framed against him should be modified on the lines of the English Bankruptcy Law under which an order for prosecution may be obtained from the Court without consulting the bankrupt on the subject.

Advantage has also been taken of this opportunity to make certain formal amendments to the Presidency-towns Insolvency Act necessitated by the constitution of a High Court of Judicature at Rangoon.

To—The Secretary to the Government of Bengal, Finance Department.

I have the honour to submit the following report on the Administration of the Salt Department for the year 1924-25. The report deals with the inland preventive work, control of inland bonded warehouses and control of saltpetre refineries and soda factories, and has been prepared in the manner approved in paragraph 2 of letter No. 74, dated the 6th January 1925, of the Government of India, Finance Department (Central Revenues).

2. **Charge of the department.**—I was on leave from the 2nd April 1924 to the 16th November 1924 and Mr. J. C. Platts, Deputy Commissioner of Excise and Salt, was in charge of the department during that period. I held charge during the remainder of the year.

3. **Manufacture of salt in Bengal.**—No license was granted for the manufacture of salt during the year under review.

4. **Prices of salt in Bengal generally.**—The average wholesale prices per maund of salt inclusive of duty at all the district headquarters during the past three years are shown in Appendix A. There was a decrease of 13 annas and 10 pies as compared with the previous year's average.

8. **Saltpetre refineries and soda factories.**—There were two licensed saltpetre refineries at Kakurgachi, as compared with 3 refineries in the previous year. The quantity of refined saltpetre produced during the year was 1,059 maunds, as compared with 1,440 maunds in the previous year. The decrease in the production was due to the closure of one refinery. No quantity of purified salt or *sitta* (impure salt) was educed in the process of refinement during the year under report, and there was no sale of purified salt. A sum of Rs. 100 was realized as license-fee from the two saltpetre refineries. There was no factory for the manufacture of sulphate of soda.

9. **Inland bonded warehouses.**—There were 6 private bonded warehouses in this Presidency, viz., 1 at Naraingunge, 3 at Jhalakati and 2 at Chandpur. One warehouse at Jhalakati was closed during the course of the year. The warehouse at Naraingunge in the district of Dacca was inspected by the Collector of Dacca, the Superintendent of Excise and Salt, Dacca, and the Sub-Divisional Officer of Naraingunge. The warehouses at Jhalakati in the district of Bakarganj were inspected by the Superintendent of Excise and Salt of the district. The warehouses at Chandpur in the district of Tippera were inspected by the Sub-Divisional Officer of Chandpur and the Superintendent of Excise and Salt, Tippera.

NOTICE is hereby given that the Board of Trustees for the Improvement of Calcutta has applied to the Local Government for sanction to the Improvement Scheme No. XXV (Kapalitola Lane Widening—from Nalanda Square to Scheme No. VIID) which was originally notified in the issue of the *Calcutta Gazette* of 19th March 1925.

CALCUTTA, *the 5th September 1925.*

Annual report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1924-25.

ROYAL BOTANIC GARDEN.

1. **General.**—A period of drought during the first few months of the year under review added to the difficulties of gardening operations already made perplexing by the necessity of accommodating oneself to a reduced budget and exploring every avenue for the reduction of expenditure. The months of April and May were exceedingly hot and dry for a garden containing so many exotic species unaccustomed to extremes of climate. To prevent mortality in such circumstances is impossible. The best one can do is to replace as fast as inroads on the collections are made and to nurse casualties back to health. Additions to the garden therefore called for special attention during the year, and Mr. Mitra, officiating Curator in charge, throughout the period, when planting out could be done, deserves special mention for his praiseworthy efforts in bringing round sickly plants and in the replacement of those that had failed altogether to stand the adverse conditions. The early period of drought had, however, a compensatory effect in restricting the development of grass and undergrowth, and so rendering the lawns and other parts of the garden, where mowing or sickling is regularly carried on, comparatively easy of maintenance. The rains were prolonged into the month of November and water, therefore, was available in sufficient quantity to dispense with an early running of the pumping plant for supply to garden lakes.

Amongst operations of a routine nature the renovation and enlargement of collections under cover may be specially mentioned. The Orchid house which, so far as the beds are concerned, was reconstructed two years ago has gained much through the attention paid to it. The ground collections here have now had time to completely accommodate themselves to the new beds, while the hanging collection renewed by the accession of consignments of orchids from the Assam jungles have little to add to the attractiveness of this, the favourite resort for visitors. Though closed to the public and therefore little known, the main shade house of the nursery is now second to none in the garden. Here the collections of foliage plants and in particular of palms in pots are housed and brought to a condition suitable for exhibit in the out-houses. With a view to gradually increasing the out collections so dependant on this nursery for variety and effectiveness efforts were made during the year to bring the stock collections to a state fit to meet any demands made on them. A rearrangement was effected allowing of easy determination of what the collections contained and the more valuable or rarer species were housed and locked off in a secondary enclosure within the main structure. Experience has demonstrated the utility of this elementary precaution, for it may not be generally known that the local *mali*, general garden worker or even casual visitor is not so ignorant of the relative values of the different plants he has opportunity to handle as he is sometimes supposed to be. Losses there have been and plants once in the collections have disappeared and reappeared on sale, but petty theft is an offence not confined to any garden. What is pleasant to report is the perceptible abatement in that form of crime which has as its object only a wilful and senseless spoliation of plants and garden property to satisfy a craving for destruction and to prevent the enjoyment of others.

In common with annuals in the district this class of plant appeared very late in bloom, the long cold season no doubt being responsible for this. A collection of rose grafts for the garden was acquired from North-West India at the beginning of the cold weather. Favoured by the length of this season they flourished exceedingly but showed signs of distress when the hot weather arrived. Although in many parts of Bengal it can be grown well, the rose is a plant somewhat exacting in the conditions it demands for success. One sees very few of the species in Calcutta itself although as near to it as Barrackpore roses can be grown to great beauty and in variety. The Howrah side and Sibpur along with it unfortunately takes after the parent city in this respect and is in general unsuited to their cultivation.

Besides the usual routine work directed to keep the garden in a fit state certain other works towards the maintenance of garden accessories have been carried out. No less than 20,280 sq. yds, of road, subject to the incessant traffic of modern rubber wheeled vehicles, have had to be repaired. Repairs comprised the whole of the Hamilton Avenue,

the College gate front, the Wallich Avenue from College gate to the probationers' quarters, parts of the Falconer and Roxburgh Avenues and the complete length of the Palmyra Avenue. In addition the Kyd monument and certain other garden structures were overhauled.

Reference has been made in recent reports to the state of the great Banyan tree. The decay that has set in, probably senile in the first place, has now become pronounced through the attacks of a virulent fungoid growth. It soon became evident that nothing would save the central column and that the only method of prolonging the life of the radial parts was to operate. At the time of writing the central portion has been completely removed and the decaying branches severed at points ahead of the disease. The intention is, as soon as the rains break, to transplant as large a stock as possible into the vacant space and when this gets established to graft it to the old plant. Owing to the great age and magnitude of the branches success will be doubtful but nothing short of this drastic treatment now offers any chance for the tree. Although conditions are bad at its centre, the Banyan shows no signs of this externally, and in respect of symmetry the number of aerial roots fixed in the ground and area covered must still remain the finest specimen of its kind in existence.

2. **Plant and seed exchange.**—Interchange of plants and seeds with other Botanical, Agricultural and Forestry Departments and with private individuals has been well maintained throughout the year. Some 17,654 plants were distributed, of which 9,100 were trees for road side and other planting, 3,851 were shrubs and 4,438 palms and surplus annuals. The balance was made up of climbers, bamboos, ferns and orchids. As is usual many of these went to Government institutions, District Boards, railways and municipalities.

In order that the plants collected by Mr. Kingdom Ward during his visit to Tibet and the Brahmaputra gorge might not have to suffer by any excessive delay in getting conditions for their growth, six large wardian cases for despatch to England were prepared in anticipation of his arrival. Into these went the wonderful collection of bulbs, rhododendrons and magnolia cuttings brought back. Besides a few plants brought back for the garden Mr. Kingdom Ward handed over a number so much the worst for the long journey they had made that they would never have travelled to England alive. They were immediately attended to, but it is too early yet to say whether the journey they have already had combined with the great change in their surroundings may not prove too much for them.

In the general receipt side is to be recorded a collection of some 1,482 plants, many of them orchids. Packets to the number 286 and 28 lbs. of seeds were distributed and 127 packets received.

3. **Herbarium and Library.**—The continued vacancy in the post of second assistant for systematic work and the absence on sick leave of the officiating Curator of the Herbarium has resulted in much of the work in this department devolving on Mr. Narayanaswami. With one officer only to do the duties of three it was impossible to attempt anything beyond general routine work. The plants already incorporated were reasonably well maintained and a praiseworthy attempt on Mr. Narayanaswami's part made to incorporate the thousands of sheets lying outside their proper cabinets. The result attained is commensurate with the labour this has involved. The herbarium looks much the cleaner for the arrangement made and there is now room to work without fear of having one's material mixed with loose collections and sheets lying about. In the aggregate some 11,000 sheets were incorporated. These include collections from all over India and Burma as well as certain foreign representatives from Africa, America and China. The most noteworthy additions are Mr. Narayanaswami's own collections from the Rampa country, Mr. Fischer's Madras Presidency plants, the writer's and Mr. Ramaswami's South Indian collections and representative collections made by Forest officers and others in Burma.

Identifications of current consignments were made on behalf of the numerous correspondents who continue to take advantage of the facilities afforded by Sibpur for such works.

Distributions include a large collection of Indian and Malayan duplicates to help build up an herbarium in the Botanical Department of the University of Allahabad. Small cases of Eastern Himalayan material collected by the writer and garden material collected by Mr. Narayanaswami were sent for the use of Edinburgh and Aberdeen Universities in connection with the botanical training of Forestry students.

The library is now free of arrears of debt and a normal number of additions has been made to it.

4. **Publications.**—No purely garden publications appeared during the year, but the distribution of Part II of Vol. XII of the Annals of the garden, as well as the Appendix to Vol. XI was completed so far as the national affairs in certain countries would allow. The work left at his death by Signor Beccari is being brought together by Professor Martelli and a promise has been given that, so far as funds permit, the cost of publication of the plates necessary to illustrate the volume will be met. A list of Indian species of plant not appearing in Hookers Flora of British India—a compilation started as a library work and continued as a work of the Botanical Survey—is ready and about to go to Press.

5. **Financial.**—Out of a total budget allotment of Rs. 1,07,038 Rs. 1,06,461-15-2 were spent. There was a saving of Rs. 5,256-7-10 mainly under "Subordinate garden staff" and "Clerical establishment", but this is almost absorbed by an excess of Rs. 4,680-7 mainly due to increase in pay of the officiating Curator of the Herbarium and inclusion of leave allowance of the Curator of the Garden. The grant of Rs. 29,468 for temporary establishment was spent in full as was also the allowance of Rs. 14,000 for contract contingencies.

6. **Staff.**—Lieutenant-Colonel A. T. Gage, C.I.E., I.M.S., was on leave throughout the year, during which time the writer officiated as Superintendent. Up till the 13th October 1924 Mr. P. M. Debbarman officiated as Curator of the Herbarium. From this date till the end of the year he was absent on leave through sickness. His place was taken by Mr. V. Narayanaswami who continued to act as Curator of the Herbarium in addition to his own duties till the end of the year. Mr. W. V. North was Curator of the Garden from the 1st April till the 23rd May and again from the 24th January till the end of the year. During the early part of his absence on leave Mr. S. N. Bose officiated as Curator; thereafter Mr. N. Mitra took charge. The post of Assistant Curator was held first by Mr. S. N. Basu and afterwards while this officer acted, by Mr. Merlin Jones. Mr. Safdar Khan acted as Overseer from the 1st October 1924 till the 19th January 1925. The Head Clerk, Babu S. K. Mitra was on leave from the 1st April till the 1st May 1924, Babu A. T. Banerji, seventh clerk, being selected to perform the duties of Head Clerk during this officer's leave. All officers and the clerical staff have given satisfaction in the performance of their duties.

CALCUTTA GARDENS.

Apart from routine work in these gardens there devolved on the staff the duty of repairing the extensive damage done to the Eden Gardens, while it was temporarily occupied by the Calcutta Exhibition authorities. In the course of erection of structures for this exhibition numbers of plants were damaged and some had to be removed altogether. The ride was left without a blade of grass on it; the Canna garden, from which all collections had been removed to avoid destruction, presented a desolate appearance and the garden throughout was strewn with bricks, concrete foundations and the usual débris that such an event leaves in its wake. As other funds were not made available, it was inevitable that the budget allotment should first be directed towards repairs and, if during the first half of the year complaints as to the condition of the garden were freely made public in the Press, it was beyond the power of the staff to bring it to a presentable condition earlier and at the same time retain enough money in hand to meet inevitable expenditure in the last months of the year. With the help of a Ford Tractor kindly loaned by the Company supplying these the ride was brought back to condition and returfed, the Canna garden was replanted and rubbish having been removed, casualties in the permanent collections made good. Although there are still evidences of the exhibition in relics of broken masonry, dismantled seats and gaping breaches in a few hedges the garden is well back to its former condition and has now regained the popularity it previously had as a place of resort for the Calcutta public.

New accessions to the Eden Garden include a collection of hybrid Dahlia bulbs received from Europe.

In the other Calcutta gardens the year's work was mostly of a routine character. As elsewhere, cold weather annuals were late but several beds in the Curzon Gardens eventually repaid the trouble taken over them and were much admired by the passing public. To Messrs. Mitra,

Basu, Quasem Ali and Safdar Khan, the officers in charge, are due thanks for the manner in which they carried out repairs and brought the gardens back to condition.

Of the full budget allotment of Rs. 29,486, Rs. 28,870-6 were spent. There was an excess of Rs. 101-9 in the grant for garden staff, but this is more than set off by a saving of Rs. 716-2 on the pay of Assistant Curator. The net saving was Rs. 615-10.

LLOYD BOTANIC GARDEN, DARJEELING.

The rainfall for the year was 120·38 inches being slightly in defect although rain commenced early the 11th April and continued till late—the 28rd October. The fall in this interval was well distributed as is shown by the number of days, 45 only, in which no measureable amount was recorded. The cold season, the dullest and most severe recorded for many years, was responsible for a certain amount of damage to both exotic and indigenous plants in the permanently planted-out collections, while certain plants in the local forests also felt its effects. Amongst exotics the following were the chief sufferers—*Cestrum aurantiacum* and other species, *Jussiaea peruviana Fuchsia macrostemma* and other species and *Doryanthes Palmeri* and of indigenous plants from levels lower than Darjeeling the following—*Luculia gratissima, Cassia lævigata, Solanum verbascifolium, Saurauja fasciculata, Musa nepalensis* and *Curculigo recurvata*. All these species are ordinarily quite hardy in Darjeeling.

As a consequence of the efforts made during the past two years to bring the garden paths and structures into good condition and the strict economy practised with regard to labour during the year, it has been found possible to carry out a few improvements during the past cold season. Certain decaying wooden railings have been replaced by iron fencing, the steepest of the paths,—difficult to maintain, if metalled—have been paved with stone blocks, revetment walls have been erected and an effort, more prolonged and determined than usual, has been made to rid the lawns and plants of moss. Some 78 species of plants new to the garden were planted out in the permanent collections during the year and a few examples which had become old, decrepit or damaged by storms were replaced.

In addition to garden work proper distribution of local seeds and plants has been carried out as in previous years.

In this Garden there was a saving of Rs. 98-7-7, mostly under rents, rates and taxes, out of a total budget allotment of Rs. 20,944.

The high standard of Mr. Cave's work in all directions has been so frequently referred to in these reports that it is, perhaps, unnecessary to comment on it further. Suffice it to say, therefore, that in the present year of his service this standard has been amply maintained.

Moreover, owing to re-assessment there has been a general increase of municipal revenue of Rs. 8,000 over the demand of 1924-25, and thus the loan will be easily paid up.

RESOLUTION.

Simla, the 28th August 1925.

No. F-21-II-C.S.R.-24.—The Secretary of State in Council has been pleased to sanction the grant of the concessions mentioned below to civil officers who rendered military service in the Great War :—

(1) If a civil officer who served with the Forces during the Great War, and who was granted sick leave during that service (other than the 3 months' absence on full pay allowed to officers wounded or invalided), has reason to think that the amount of civil leave earned by him in respect of his military service was less than the amount debited in his leave account in respect of the same service, his leave account will, on his making application, be examined and, if such should be found to be the case, the excess debit will be cancelled.

(2) Sick leave taken by an officer during military service will count for pension up to a maximum of two years (as in the case of special disability leave) irrespective of whether he was eventually invalided from military service or not. If he was invalided from military service, any such period of sick leave allowed to count for pension should be deducted from any period of disability leave that might otherwise be admissible to him on his release from military service.

2. Pensioners who retired before the date of this Resolution, who have reason to think that their pension will be increased by the concession now sanctioned, should make an application for re-calculation of their pensions to the authority which sanctioned their pension. Any increase of pension which may be admissible as a result of the concession will have effect from the 5th July 1925.

ORDERED that the resolution be published in the *Gazette of India* (Part I).

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Jute Crop of Bengal, 1925.

(NOTE.—On an average of the five years ending 1923-24, the area under jute in Bengal, to which this forecast relates, represents some 85·3 per cent. of the total area under jute in British India.)

Season.—In the preliminary forecast, the weather was reviewed up to June; it being too wet in North and parts of East Bengal, but favourable in West Bengal. The rainfall in July was about the average, with the result that there was a gradual rise of rivers, to the benefit of retting operations generally. Deficiency of rainfall in August made retting difficult in certain highland tracts of Eastern Bengal, but the normal rise of rivers during the course of the month facilitated the operation. Good rainfall in the beginning of September again proved beneficial. In West Bengal the conditions were favourable throughout, but insufficient rain in August interfered with the harvesting operations in some tracts.

Condition of the Crop.—In West Bengal the crop is expected to be good, on the whole. Elsewhere the crop is satisfactory, except in Mymensingh and parts of Northern Bengal.

Acreage.—The area under jute is 2,552,936 acres, an increase of 162,833 acres or 6·8 per cent., as compared with last year. The area for Nadia has been increased from 60,240 to 72,335 acres; Rangpur from 260,648 to 270,000 acres; and Pabna from 126,100 to 136,100 acres, since the issue of the preliminary forecast. The area for Malda is returned at 26,414 acres, an increase of 11,330 acres over last year's figure. Several other minor alterations have also been made in some districts. These changes are due mostly to further scrutiny of the preliminary figures.

Outturn.—As in previous years, the percentage figures are calculated on the basis of divisional normals, which remain as follows:—Dacca and Chittagong 3·7 each, Rajshahi 3·5, Presidency and Burdwan 3·2 bales per acre.

The total outturn of the crop is estimated at 6,983,400 bales of 400 lbs., as against 7,239,865 bales of last year, a decrease of 256,465 bales. This is due largely to the poor yield in Mymensingh (only 62·16 per cent. of normal over an area representing roughly one-fifth of the total), and in Northern Bengal, particularly Rangpur, consequent on water-logging from heavy rain in the early stages of the crop. In Mymensingh alone this means a decrease of over 7 lakhs on last year. This figure, which appears low, has been arrived at after a careful scrutiny.

Final Forecast of the Jute Crop of Bengal, 1925.

24-Parganas ..	42,000	58,246	78	89	105,380	165,885	Middle of August. Normal.	The increase in area over previous year is due to timely rainfall and to high price obtained last year.
Nadia ..	72,335	72,335	93·75	80	217,005	185,177	Last week of August. Normal.	Want of sufficient moisture retarded the growth of the plants. There was some damage by drought and insects at places. Hence the percentage outturn and yield are below the normal and the last years figures.
Murshidabad ..	14,983	21,623	71	75	31,797	59,095	Beginning of August. Early.	The increase in area is due to high price of jute last year and also to favourable weather conditions.
Jessore .	81,641	101,335	92	90	240,723	291,844	Middle of August. Normal.	The increase in area is due to the high price of jute last year and to favourable weather conditions at sowing time. The outturn is below the normal, owing to damage caused by insect pests and to want of sufficient rain during the growing period. Scarcity of water due to inadequate rainfall is causing difficulty in steeping. Hence the harvesting is suspended in places in Sadar, Bongaon and Jhenida subdivisions.
Khulna ..	20,315	25,317	100	100	65,008	81,014	End of August. Normal	The increase in area is due to high price of the crop during last year and to an expectation of better market this year.
Burdwan ..	2,111	3,192	62·02	95	4,210	10,615	End of August. Normal.	The decrease in area, as compared with the preliminary forecast, is due to a portion, that was sown early, being damaged by drought
Midnapore ..	2,310	9,191	56	60	4,158	17,646	Low land—End of August. Normal. Highland—Will commence by the end of September, which is late.	The increase in area is due to favourable weather conditions at sowing have time and to high price of the crop last year.
Hooghly ..	11,125	22,122	64·37	106·25	22,936	75,215	Middle of August. Normal.	High price of the crop last year and favourable season at sowing time resulted in an increase in the area under jute.
Howrah ..	4,638	7,015	60	80	8,943	17,958	Third week of August. Normal.	The increase in area is due to high price of the fibre and to favourable weather conditions at sowing time.
Rajshahi ..	93,000	97,125	100	83	325,500	282,148	August. Normal	The area has slightly increased. The reason for the shortage of outturn are excess of rain in sowing time. (April and May) and irregular and uneven distribution later.
Dinajpur ..	62,200	62,200	87·2	80	180,945	174,160	By the middle of August.	After sowing the crop suffered a good deal on account of heavy rainfall but the condition improved to some extent later on. For the reason stated, the outturn has fallen below the normal.
Jalpaiguri ..	42,000	40,000	85·1	80	125,440	112,000	Normal ..	The decrease in outturn is due to heavy rain during sowing time. From this cause the crop sufferod much damage after sowing
Darjeeling ..	2,491	2,227	82·8	80	7,216	6,235	Middle of August. Normal.	The decrease in area is due to unfavourable weather conditions and heavy rain at the commencement of the jute season.
Rangpur ..	270,000	270,000	101	75	951,450	703,750	August. Normal ..	The preliminary forecast area has been increased. The decrease in outturn is due to unfavourable weather.
Bogra ..	79,583	80,000	93·30	78	260,141	218,400	End of June ..	Constant heavy rain at the beginning of the season hampered the cultivation and growth of the crop. Hence the low outturn.

Pabna ..	118,050	136,100	97·14	80	401,767	381,080	Middle of July. Normal.	The preliminary forecast area has been increased. Continual showers after sowing, the drought in June, want of sufficient rainfall later on and damage done by insects affected the growth to a considerable extent. Hence the outturn is below the normal.
Malda ..	15,084	26,414	89·36	82·5	47,176	76,270	Middle of June. Early.	The preliminary forecast area was received late. The increase now shown is due to high prices last year and to favourable weather at sowing time.
Dacca ..	283,236	205,932	71·5	81·08	750,000	887,784	Late part of June. Early.	Drought followed by the sudden rise of water and the damage by insect pests have caused the outturn to fall below the normal.
Mymensingh ..	606,000	558,993	85·1	62·16	1,908,990	1,285,628	Middle of July. Normal	The low outturn is due to damage caused by early excessive rainfall, which resulted in water-logging and caused stunted growth.
Faridpur ..	200,000	238,500	92	89·2	680,800	787,050	Beginning of July. Early.	The final area is the same as in the preliminary forecast. The premature harvesting is exceptional this year, owing to high price. The high land, jute has not yet been harvested.
Bakarganj ..	33,002	39,304	50·75	88·35	69,430	128,482	Middle of July. Normal.	The increased outturn is due to favourable weather conditions throughout.

Tippera ..	269,000	303,324	64·86	71·2	615,600	808,900	Latter part of July. Normal.	The outturn is below the normal owing to damage caused by flood in the low land areas in July last.
Noakhali ..	33,166	49,739	80·2	87	98,503	160,000	July and August. Normal.	The increase in area is due to the high price of jute last year.

NOTE.—The figures given above are the averages for all the rain registering stations in each district.

DEPARTMENT OF AGRICULTURE, BIHAR AND ORISSA.

Final Forecast of the Jute Crop of Bihar and Orissa, 1925.

(NOTE.—On an average of the five years ending 1923-24, the area under jute to which the Bihar and Orissa forecast relates, represents about 8·2 per cent. of the total area under jute in British India.)

Acreage.—The final district returns of the seven jute-growing districts of the province show an area under jute of 248,300 acres, as against the finally revised figure of 246,200 acres of last year. The increase in area is mainly in Purnea and the Santal Parganas and is attributed to favourable weather conditions at the beginning of the growing season. Since the issue of the preliminary forecast the area under jute in Cuttack has been reduced by about 10,800 acres, the reason being attributed to over-estimate and also to heavy rain and floods in July. Last year's area in Purnea has since been revised.

Weather conditions.—In March light rain fell in the jute districts, except Muzaffarpur, the fall being below the normal everywhere, except Bhagalpur and the Santal Parganas, where it was above the normal. In April the fall was in excess of the normal everywhere and in May it was below the normal everywhere, except in Champaran and the Santal Parganas, where it was above the normal. In June the rainfall was below the normal in all jute districts, except Cuttack and Balasore, where it was above the normal. In July the rainfall was below the normal everywhere, except Cuttack, where it was above the normal. In August the rainfall was on the whole sufficient in the jute districts. In Purnea the drought in the months of May and June retarded the growth of the plant to some extent.

Outturn.—In the important jute districts of Purnea and Cuttack, the outturn of the crop has been estimated as 75 and 62 per cent. of normal, respectively. Champaran and the Santal Parganas each reports a normal crop, *i.e.*, 100 per cent. Balasore, Bhagalpur and Muzaffarpur report 85, 81 and 75 per cent., respectively.

On the basis of the area and percentage outturn reported by the District Officers, and taking three bales, as the normal outturn per acre, the total gross outturn of the crop for the province this year comes to 555,984 bales or, in round numbers, 556,000 bales, against 489,200 bales, the revised final estimate for last year.

The average import of raw jute into this province from Nepal during the last three years was equivalent to 59,744 bales. This figure, added to the figure for the province arrived at, gives a total for Bihar and Orissa of 615,728 bales or, in round numbers, 615,700 bales, against 548,027 bales or, in round numbers, 548,000 bales, the revised figure for last year.

DEPARTMENT OF AGRICULTURE, ASSAM.

Final Forecast of the Jute Crop of Assam, 1925.

(NOTE.—On the average of the five years ending 1923-24, the area under jute in Assam represents 5·1 per cent. of the total area under jute in British India.)

Season.—The condition of weather during the first part of the season was very wet, interfering much with the cultivation of jute and retarding growth and causing damage to the crop to a considerable extent. Weeding was also interfered with.

Area.—The area, as reported by the Deputy Commissioners, is 125,600 acres, against the revised figure of 134,100 acres of last year and 118,900 acres of the preliminary forecast of this year. The areas reported in the preliminary forecast have been revised in four districts, two showing a decrease and two an increase.

Outturn.—The outturn is estimated to be 58 per cent. of the normal yield per acre, against 71 per cent. of last year. Taking 3·5 bales of jute fibre as the normal yield per acre, the total produce of the crop in this province this year comes to 252,200 bales, against the revised figure of 332,600 bales of the preceding year or a decrease of about 24 per cent

Cachar ..	300	300	300	70	60	600	600	First part of August: Normal.	The season has been very wet, affecting the cultivation and growth of the crop to a considerable extent.
Sylhet ..	17,000	13,500	13,200	64	60	30,200	27,700	Beginning of August: Normal.	The weather during April and May was very rainy and consequently the sowing and growth of the crop were very badly affected. The floods in May also damaged the crop in low-lying tracts. The character of weather from June to August was on the whole not favourable.
Goalpara ..	50,000	52,800	41,500	65	40	120,200	58,100	Middle of July: Normal.	The continuous heavy rains during the first part of the season hampered sowing operations and retarded growth to a large extent and also damaged the crop in low-lying places. Hence the outturn is very poor.
Kamrup ..	12,700	10,800	10,100	80	50	30,200	17,700	15th August: Normal	The weather has been unfavourable for sowing and growth of the crop on account of continuous heavy rains. Damage by flood and heavy rains has been reported from most places.
Darrang ..	9,300	13,100	8,200	70	60	32,000	17,200	Middle of July: Early	The season has not been favourable to the crop. The heavy rains at the early part of the season affected sowing and growth of the crop considerably. The outturn is therefore expected to be poor this year.
Nowgong ..	14,700	30,300	47,200	80	75	110,000	123,000	15th July: Early ..	The weather at the beginning was not favourable, but the rise in price of jute has caused an increase in cultivation. The excessive rain during early growth damaged the crop to a certain extent. Some damage was also done by insects.
Sibsagar ..	300	300	300	80	75	800	800	Middle of August: Normal.	The weather on the whole was not favourable to the crop. Continuous rains in March and April greatly interfered with the timely sowing of the crop and also caused some damage to the crop in the Sibsagar subdivision.
Lakhimpur .	200	200	200	77	84	500	600	15th August: Normal	The weather at the beginning of the season was not favourable on account of excessive rains, but from June to August it was normal. Some damage was done to the crop by heavy rains in low lands.
Garo Hills (Plains portion).	4,600	3,800	4,000	60	40	8,100	5,600	Middle of August: Normal.	As the weather at sowing time was favourable and price of jute was high, the area increased. But the continuous heavy rains during the last part of May and first part of June affected the crop considerably and the out-turn is therefore expected to be very poor this year.

CALCUTTA, *the 16th September 1925,*

A. D. STEWART, MAJOR, I.M.S., *Director of Public Health, Bengal (offg.).*

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for August 1925.

I. **Character of the season.**—The rainfall during the month was markedly in defect of the normal. The precipitation was, however, above the average in North Bengal districts excepting Rajshahi, Bogra, Pabna and Malda. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Owing to insufficient rain the transplanting of winter paddy seedlings was considerably retarded in the West Bengal districts and in parts of Mymensingh ; elsewhere the operation was normally active and weeding was proceeded with. Harvesting of autumn paddy continued under favourable conditions. The cutting, steeping and retting of jute progressed favourably in East and North Bengal districts. In West Bengal and in parts of Mymensingh difficulty was experienced owing to insufficient water.

III. **State of standing crops.**—The standing crops were generally doing well except on the highland tracts in Western Bengal, where the condition is not satisfactory for want of sufficient rain.

IV. **Prospects and probable outturn.**—Insufficient rainfall which delayed the transplanting of winter paddy seedlings in West Bengal districts has also had an adverse influence on the growth and consequent outturn of the crop. The prospects of winter rice in the rest of the province as well as of sugarcane and other standing crops are fairly good.

V. **Damage to standing crops.**—Slight damage by insect-pests was reported from some of the West Bengal districts.

VI. **Conditions of agricultural stock.**—The condition of livestock was generally fair. Stray cases of cattle-disease were reported from several districts.

VII. **Failure of pasturage and fodder.**—There was no scarcity of fodder.

VIII. **Prices of food-grains.**—During the second fortnight of the month the price of common rice of the cheapest quality rose in 6 districts, fell in 6 others, and remained stationary in the rest of the province.

IX. **Condition of agricultural population.**—The condition of agricultural population was fairly good.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 16th September 1925.

Summary.—There was stormy weather in parts of North and East Bengal accompanied by general rainfall throughout the province. The recent rain has facilitated the growth of transplanted winter paddy and has improved its prospects generally. More rain is, however, needed in the Burdwan Division, especially for the highland tracts. The area under winter paddy is likely to be less than last year owing to want of timely rainfall. The average price of common rice for the province has risen by about 1·02 per cent. as compared with that of the previous week.
